422	Hedgerow Planting	50%	Y
603	Herbaceous Wind Barriers	Incentive	Y
320	Irrigation Canal or Lateral	50%	Y
464	Irrigation Land Leveling	50%	Y
441	Irrigation System, Microirrigation	50%	Y
442	Irrigation System, Sprinkler	50%	Y
443	Irrigation System, Surface and Subsurface	50%	Y
447	Irrigation System, Tailwater Recovery	50%	Y
428B	Irrigation Water Conveyance, Ditch and Canal Lining, Flexible Membrane	50%	Y
428C	Irrigation Water Conveyance, Ditch and Canal Lining, Galvanized Steel	50%	Y

Note: Limited Resource Farmers/Ranchers are eligible for an additional 25% cost-share. Beginning Farmer/Ranchers are eligible for an additional 15% cost-share.

Incentive payment flat rates are found in Part B.

Existing animal feeding operations are eligible for a cost-share rate of 60% for practices required for the proper design, implementation, and management of the animal waste system. Practices/components associated with all animal waste systems will be limited to $130,000 of cost-share assistance for the system during the lifespan of the 2002 Farm Bill. Practices/components associated with irrigation conversions will be limited to $75,000 per producer during the lifespan of the 2002 Farm Bill.

If local resource concerns merit the implementation of a conservation practice not considered a State eligible practice, the Local Work Group may submit a request to the State Conservationist. Requests must justify how the practice will benefit National, State and local resource concerns. Requests shall include payment method and recommend proposed costs.
