NRCS Practice Code	Practice Name	Units	Payment Type 1/	Resource Concerns	Practice Service Life 2/	Comments
102	Comprehensive Nutrient Management Plan (CNMP) – Written	Number	PR	**Water Quality Degradation** – Nutrients in Groundwater, Nutrients in Surface Water	1 yr.	Payment for the development of a CNMP.
104	Nutrient Management-Plan Written	Number	PR	**Water Quality Degradation** – Nutrients in Groundwater, Nutrients in Surface Water	1 yr.	
313	Waste Storage Facility	Number	PR	**Soil Quality Degradation** – Compaction **Water Quality Degradation** – Nutrients in Surface Water; Excess Pathogens and Chemicals from Manure, Bio-solids or Compost Applications in Surface Water	15 yr.	
317	Composting Facility	Number	PR	**Water Quality Degradation** – Nutrients in Surface Water, Nutrients in Groundwater; Excess Pathogens and Chemicals from Manure, Bio-solids or Compost Applications in Surface Water	15 yr.	Non-mortality composting facility. As a component of a CNMP.
327	Conservation Cover	Acre	PR	**Soil Erosion**-Sheet and rill & Ephemeral Gully **Fish & Wildlife – Inadequate Habitat -** Cover/Shelter, Food, Space	5 yr.	
329	Residue Management – No till/strip till	Acre	PR	**Soil Erosion** – Sheet & rill, ephemeral gully **Soil Quality Degradation** – Organic Matter Depletion, Compaction **Water Quality Degradation** – Excessive Sediment in Surface Water	1 yr.	
330	Contour Farming	Acre	PR	**Soil Erosion** – Sheet/Rill and Ephemeral Gully **Water Quality Degradation** – Excessive Sediment in Surface Water	5 yr.	Annual payment for a 3 year period.
340	Cover Crop	Acre	PR	**Soil Erosion** – Sheet/Rill and	1 yr.	

NRCS Practice Code	Practice Name	Units	Payment Type 1/	Resource Concerns	Practice Service Life 2/	Comments
				Ephemeral Gully **Water Quality Degradation** – Nutrients in Surface Water; Excessive Sediment in Surface Water **Soil Quality Degradation** – Organic Matter Depletion		
342	Critical Area Planting	Acre	PR	**Soil Erosion** – Sheet/Rill, Ephemeral Gully, and Classic Gully **Water Quality Degradation** – Excessive Sediment in Surface Water	10 yr.	Stabilize areas where vegetation is difficult to establish. This is used on structural practices after construction. Payment rate varies on type of seeding.
356	Dike	Feet	PR	**Fish & Wildlife** – **Inadequate Habitat -** Water	20 yr.	
362	Diversion	Feet	PR	**Soil Erosion** – Sheet/Rill, Ephemeral Gully, and Classic Gully **Excess Water** – Runoff, Flooding, or Ponding **Water Quality Degradation** – Excessive Sediment in Surface Water	10 yr.	
367	Roofs and Covers	Number	PR	**Air Quality Impacts** – Objectionable Odors, Emissions of Particulate Matter (PM) and PM Precursors **Water Quality Degradation** – Excess Pathogens and Chemicals from Manure, Bio-solids or Compost Applications in Groundwater	10 yr.	
382	Fence	Feet	PR	**Livestock Production Limitation** -Inadequate Feed & Forage **Water Quality Degradation** – Excess Pathogens and Chemicals from Manure, Bio-solids or Compost Applications in Surface Water	20 yr.	To be used only for prescribed grazing systems or use exclusion practice; interior fences only; payment rate varies on type of fence.
410	Grade Stabilization Structure	Number	PR	**Soil Erosion**-Classic gully, Streambank, Shoreline, Water	15 yr.	Payment rate varies on type of structure.

NRCS Practice Code	Practice Name	Units	Payment Type 1/	Resource Concerns	Practice Service Life 2/	Comments
				Conveyance Channels **Water Quality Degradation** – Excessive Sediment in Surface Water		
412	Grassed Waterway	Acre	PR	**Soil Erosion** – Ephemeral Gully and Classic Gully **Water Quality Degradation** – Excessive Sediment in Surface Water	10 yr.	Practice may be used in combination with 606-subsurface drain and 342-critical area planting. Payment does cover fabric installed in waterway. Payment rate varies on width of waterway.
472	Access Control	Acre	PR	**Soil Erosion** - Classic Gully, Streambank, Shoreline, Water Conveyance Channels **Water Quality Degradation** – Excessive Sediment in Surface Water, Nutrients in Surface Water, Excess Pathogens and Chemicals from Manure, Bio-solids or Compost Applications in Surface Water	10 yr.	Exclusion of livestock from woodlands, ponds, and intermittent streams (3 dot blue line streams on USGS Topo maps) and larger. Area must be fenced. Annual payment for 3 years maximum.
484	Mulching	Acre	PR	**Soil Erosion** - Classic Gully; Ephemeral Gully, & Sheet & Rill	1 yr.	
490	Tree/Shrub Site Preparation	Acre	PR	**Degraded Plant Condition** Undesirable Productivity heath & vigor, Excessive Plant Pest Pressure	1 yr.	Woodland Stewardship Plan required.
512	Forage and Biomass Planting	Acre	PR	**Livestock Production Limitation** -Inadequate Feed & Forage **Degraded Plant Condition** Undesirable Productivity heath & vigor, Inadequate Structure and Composition **Soil Erosion**-Sheet & rill **Water Quality Degradation** – Excessive Sediment in Surface Water	5 yr.	Converting cropland or renovation of hayland. Used for both cool and warm season grasses.
528	Prescribed Grazing	Acre	PR	**Degraded Plant Condition** Undesirable Productivity heath & vigor, Inadequate Structure and Composition **Livestock Production**	1 yr.	A one-time payment made after all associated grazing practices are installed. Payment rate varies on number of paddocks.

NRCS Practice Code	Practice Name	Units	Payment Type 1/	Resource Concerns	Practice Service Life 2/	Comments
				Limitation -Inadequate Feed & Forage **Water Quality Degradation** – Excessive Sediment in Surface Water, Nutrients in Surface Water		
533	Pumping Plant	Number	PR	**Livestock Production Limitation** – Inadequate Water; **Degraded Plant Condition** Undesirable Productivity heath & vigor	15 yr.	For livestock practices only.
558	Roof Runoff Structure	Number	PR	**Water Quality Degradation** – Nutrients in Surface Water, Nutrients in Groundwater	15 yr.	
561	Heavy Use Protection	Acre	PR	**Soil Erosion**-Sheet & rill; Ephemeral Gully **Water Quality Degradation** – Excessive Sediment in Surface Water, Excess Pathogens and Chemicals from Manure, Bio-solids or Compost Applications in Surface Water, Nutrients in Surface Water	10 yr.	For protection of livestock feeding and watering areas in a grazing system (includes Winter Feeding Stations). Payment rate varies on type of installation.
585	Stripcropping	Acre	PR	**Soil Erosion** – Sheet/Rill and Ephemeral Gully **Soil Quality Degradation** – Organic Matter Depletion **Water Quality Degradation** – Excessive Sediment in Surface Water	5 yr.	Annual payment for a 3 year period.
587	Structure for Water Control	Number	PR	**Fish & Wildlife** – **Inadequate Habitat -** Water	20 yr.	
590	Nutrient Management	Acre	PR	**Water Quality Degradation** – Nutrients in Surface Water, Nutrients in Groundwater, Excess Pathogens and Chemicals from Manure, Bio-solids or Compost Applications in Surface Water	1 yr.	
600	Terrace	Feet	PR	**Soil Erosion** – Sheet/Rill, Ephemeral Gully **Excess Water** – Runoff,	10 yr.	

NRCS Practice Code	Practice Name	Units	Payment Type 1/	Resource Concerns	Practice Service Life 2/	Comments
				Flooding, or Ponding **Water Quality Degradation** – Excessive Sediment in Surface Water		
606	Subsurface Drain	Feet	PR	**Soil Erosion** - Sheet & Rill, Ephemeral Gully; and Classic Gully **Excess Water** –Seeps **Water Quality** - Excessive Suspended Sediment and Turbidity in Surface Water	20 yr.	Can only be used when required in combination with another practice on this list. When used in combination with a grassed waterway, payment is limited to no more than the amount needed to maintain the grassed waterway. The maximum size for cost share assistance when used in combination with a grassed waterway is 6 inch diameter tile. Payment rate varies on size of tile.
612	Tree/Shrub Establishment	Acre	PR	**Fish & Wildlife** – **Inadequate Habitat -** Cover/Shelter, Food **Soil Erosion** – Wind **Air Quality Impacts** – Emissions of Greenhouse Gases (GHGs)	15 yr.	Woodland Stewardship Plan required.
620	Underground Outlet	Feet	PR	**Soil Erosion** - Ephemeral Gully, Classic Gully **Excess Water** – Runoff, Flooding, or Ponding	20 yr.	Practice is used in combination with 600-Terraces and 638-Water and Sediment Control Basins. Includes payment for intakes, tile, and tile outlet as required by the job. Payment rate varies on size of tile.
632	Solid/Liquid Waste Separation Facility	Number	PR	**Water Quality Degradation** – Nutrients in Surface Water, Excess Pathogens and Chemicals from Manure, Bio-solids or Compost Applications in Surface Water **Soil Quality Degradation** – Organic Matter Depletion	15 yr.	
634	Waste Transfer	Number	PR	**Water Quality Degradation** – Nutrients in Surface Water, Nutrients in Groundwater	15 yr.	As a component of a CNMP
638	Water and Sediment Control Basin	Number	PR	**Soil Erosion** – Ephemeral Gully and Classic Gully **Water Quality Degradation** –	10 yr.	

NRCS Practice Code	Practice Name	Units	Payment Type 1/	Resource Concerns	Practice Service Life 2/	Comments
				Excessive Sediment in Surface Water		
645	Upland Wildlife Habitat Management	Acre	PR	**Fish & Wildlife – Inadequate Habitat -** Cover/Shelter, Food, Space	1 yr.	To be used in conjunction with a wildlife habitat management plan.
747	Denitrifying Bioreactor	Acre	PR	**Water Quality Degradation –** Nutrients in Surface Water Surface Water	10 yr.	
201	Edge-of-Field Water Quality Monitoring	Number	PR	**Water Quality Degradation –** Excessive Sediment in Surface Water, Nutrients in Surface Water, Nutrients in Groundwater	1 yr.	
911	*Technical Assistance Design*	Number	*100% AM*	***Soil Erosion/Water Quality Degradation***	----	*Reimbursement of conservation design activities by a Technical Service Provider (TSP).*
912	*Technical Assistance Application*	Number	*100% AM*	***Soil Erosion/Water Quality Degradation***	----	*Reimbursement of conservation application activities by a Technical Service Provider (TSP).*
913	*Technical Assistance Checkout*	Number	*100% AM*	***Soil Erosion/Water Quality Degradation***	----	*Reimbursement of conservation installation activities by a Technical Service Provider (TSP).*

1/ **Payment Schedule Type**: PR – Payment amount per unit of practice applied, rates available at local NRCS office.
AM – The actual cost not to exceed a specified maximum cost.

- Historically Underserved Clients receive a higher payment rate.

2/ Length of time the practice is to be maintained.
