Water Quality initiative

USDA NRCS
United States Department of Agriculture
Natural Resources Conservation Service

Technical and Financial Assistance Available

You may be eligible to receive technical and financial assistance from USDA's Natural Resources Conservation Service to improve water quality on your land through the Environmental Quality Incentives Program Water Quality Initiative. Assistance is available in the Poison Creek – Willow Creek and Little Willow Creek area to help you implement the following conservation activities to improve water quality on your land:

- Nutrient Management Systems
- Erosion control
- Conservation tillage
- Irrigation Water Management
- And much more…!

Contact your local NRCS field office to learn more about how NRCS can help you improve water quality.

www.or.nrcs.usda.gov

Deadlines: April 19, May 17
