Agricultural Waste Management Field Handbook Notice IL-11 Waste Management System Planning and Implementation

Subject: Reference Material for Comprehensive Nutrient Management Plan Statement of Work

Purpose: To distribute IL-Extension Service CD, Manure Management Planning

Effective Date: Upon Receipt

Background Statement: Agricultural Waste Management Field Handbook Supplement 10 issued a new Statement of Work (SOW) for Comprehensive Nutrient Management Plans (CNMP's). In several places, that SOW refers to the University of Illinois Extension Service document, Manure Management Planning.

Supplement 11 transmits to each Illinois NRCS Field Office a CD entitled, "Illinois Manure Management Plans, Step-By-Step Instruction Book, Forms and Spreadsheets (IL-MMP)".

There is no need to copy this CD to your PC. The pop up screen you get upon inserting the CD is fully interactive with the CD. If you don't get the blue screen with 4 bars when CD is inserted, open explorer, search the CD drive and click on the WELCOME.EXE file. One hint – to open most files, all you have to do is hold down the ctrl key while you click!

INSTRUCTIONS: None
