Kansas WHIP Practice Payment Schedule

Fiscal Year 2008

Practice Code	Practice Name	Activity	Unit	Payment Rate
314	**Brush Management**			
		Mechanical Treatment High Infestation Level	Acre	$97.50
		Mechanical Treatment Medium Infestation Level	Acre	$67.50
		Mechanical Treatment Low Infestation Level	Acre	$45.00
		Chemical Ground Broadcast / Spot [5]	Acre	$18.00
		Chemical Aerial Broadcast Treatment [5]	Acre	$17.25
332	**Contour Buffer Strips**			
		Introduced Grass Seeding	Acre	$57.53
		Introduced Grass Seeding With Fertilizer Application	Acre	$67.88
		Native Grass and Forb Seeding	Acre	$117.90
		Native Grass Seeding	Acre	$106.28
338	**Prescribed Burning**			
		Prescribed Burning	Acre	$5.25
340	**Cover Crop**			
		Cover Crop	Acre	$26.48
342	**Critical Area Planting**			
		Native Grass Seeding	Acre	$105.08
		Bermuda Grass Sprigging	Acre	$137.46
		Bermuda Grass Sprigging With Fertilizer Application	Acre	$147.81
		Introduced Grass Seeding	Acre	$56.33
		Introduced Grass Seeding With Fertilizer Application	Acre	$66.68
356	**Dike**			
		Any type of dike installation. The unit cost is the linear feet (LnFt) of dike installed. [1]	LnFt	$3.63
362	**Diversion**			
		Any type of diversion installation. The unit cost is the cubic yards (CuYd) of diversion installed. [1]	CuYd	$1.08
378	**Pond ($3,500 limit per contract)**			
		An embankment pond that requires a permit from Kansas Department of Agriculture, Division of Water Resources to construct. The unit cost is based on the cubic yards of earthfill in the embankment, including the earthfill in the cutoff trench.	CuYd	$2.16
		A small embankment pond that does not require a permit from Kansas Department of Agriculture, Division of Water Resources to construct. The unit cost is based on the cubic yards of earthfill in the embankment, including the earthfill in the cutoff trench.	CuYd	$1.75
		A small excavated pond with a designed embankment. The unit cost is based on the cubic yards of excavation in the pond.	CuYd	$1.58
		A small excavated pond where the excavated material is placed in a spoil pile. The unit cost is based on the cubic yards of excavation in the pond.	CuYd	$1.33
380	**Windbreak/Shelterbelt Establishment**			
		Balled Seedling greater than 18 inches - Planting	Each	$4.72
		Balled Seedling less than or equal to 18 inches - Planting	Each	$1.76
		Container Seedling Planting	Each	$1.69
		Bareroot Seedling Planting	Each	$1.19

Practice Code	Practice Name	Activity	Unit	Payment Rate
382	**Fence**			
		Four or Five Strand Barbed or Woven Wire	LnFt	$1.26
		Permanent Energized Electric Wire	LnFt	$0.57
386	**Field Border**			
		Native Grass and Forb Seeding	Acre	$76.65
		Native Grass Seeding	Acre	$65.03
		Native Grass Critical Area Seeding Rate	Acre	$106.28
		Introduced Grass Seeding	Acre	$46.88
		Introduced Grass Critical Area Seeding Rate	Acre	$57.53
		Introduced Grass Critical Area Seeding Rate With Fertilizer Application	Acre	$67.88
		Introduced Grass Seeding With Fertilizer Application	Acre	$57.23
391	**Riparian Forest Buffer**			
		Direct Seeding	Acre	$168.91
		Container Seedling Planting	Each	$1.69
		Tree Shelter	Each	$2.63
		Bareroot Seedling Planting	Each	$1.19
393	**Filter Strip**			
		Introduced Grass Seeding	Acre	$46.88
		Introduced Grass Seeding With Fertilizer Application	Acre	$57.23
		Introduced Grass Critical Area Seeding Rate	Acre	$57.53
		Introduced Grass Critical Area Seeding Rate With Fertilizer Application	Acre	$67.88
		Native Grass Critical Area Seeding Rate	Acre	$106.28
		Native Grass and Forb Seeding	Acre	$76.65
		Native Grass Seeding	Acre	$65.03
394	**Firebreak**			
		Introduced Grass Border Strip Seeding	Acre	$46.88
		Introduced Grass Border Strip Seeding with Fertilizer Application	Acre	$56.59
		Clean Tillage	Acre	$6.98
412	**Grassed Waterway**			
		Shaping and/or grading of a grassed waterway to the design dimensions. The unit cost is based on the acres of waterway shaped.	Acre	$963.00
		Placing topsoil from a stockpile in the bottom of a grassed waterway as required by the design due to special conditions. The unit cost is based on the acres of waterway shaped.	Acre	$708.06
422	**Hedgerow Planting**			
		Container Seedling Planting	Each	$1.69
		Bareroot Seedling Planting	Each	$1.19
430DD	**Irrigation Water Conveyance, Pipeline, High-Pressure, Underground, Plastic**			
		Installation of a two inch or smaller plastic pipe as the supply line for micro-irrigation of trees or shrubs. The unit cost is based on the linear feet of pipe installed and includes all valves, connections, and other appurtenances. [2]	LnFt	$1.15
441	**Irrigation System, Microirrigation**			
		Installation of a drip or trickle microirrigation system for establishment of trees or shrubs. The unit cost is based on the number of trees and/or shrubs watered and includes all pipe, valves, filters, etc. [2]	Each	$2.02

Practice Code	Practice Name	Activity	Unit	Payment Rate
484	**Mulching**			
		Weed Barrier - four feet by four feet squares	Each	$1.50
		Weed Barrier Roll	LnFt	$0.38
		Erosion Control Blanket	SqYd	$1.37
		Straw Mulch	Ton	$41.25
512	**Pasture and Hay Planting**			
		Native Grass Seeding	Acre	$95.78
		Introduced Grass Seeding With Fertilizer Application	Acre	$57.23
		Bermuda Grass Sprigging With Lime and Fertilizer Application	Acre	$134.15
		Introduced Grass Seeding With Lime and Fertilizer Application	Acre	$67.94
		Bermuda Grass Sprigging With Fertilizer Application	Acre	$123.44
516	**Pipeline**			
		Installation of a two inch diameter or smaller plastic pipe as the supply line for livestock water. The unit cost is based on the linear feet of pipe installed and includes appurtenances such as air and pressure relief valves, hydrants, etc. [4]	LnFt	$1.14
		Installation of a two inch or smaller pipe in an embankment dam as the water supply line for livestock water. The unit cost is based on the linear feet of pipe installed to a watering facility within 100 feet of the embankment and includes all appurtenances. [4]	LnFt	$2.13
		Siphon - Installation of a siphon pipe, two inch diameter or smaller, in or around an embankment dam as a water supply line. The unit cost is based on the linear feet of pipe installed to a watering facility within 100 feet of the embankment and includes all appurtenances. [4]	LnFt	$3.48
521B	**Pond Sealing or Lining - Soil Dispersant**			
		Natural Moisture - Installation of a compacted clay soil liner treated with a soil dispersant and limited additional moisture. The unit cost is based on the cubic yards of liner and cover. It includes the dispersant, moisture conditioning, and compaction. [3]	CuYd	$4.00
		Added Moisture - Install a compacted clay soil liner treated with a soil dispersant and substantial additional moisture. The unit cost is based on the cubic yards of liner and cover. It includes the dispersant, moisture conditioning, and compaction. [3]	CuYd	$4.21
521C	**Pond Sealing or Lining - Bentonite Sealant**			
		Installation of a compacted soil liner treated with bentonite. The unit cost is based on the cubic yards of liner and cover. It includes the bentonite material, moisture conditioning, compaction, and soil cover. [3]	CuYd	$13.72
521D	**Pond Sealing or Lining - Clay Treatment**			
		Natural Moisture - Installation of a compacted clay soil liner where the natural soil moisture is within three percent of optimum moisture. The unit cost is based on the cubic yards of liner and cover. It includes moisture conditioning, compaction, and soil cover. [3]	CuYd	$2.82
		Added Moisture - Installation of compacted clay soil liner where natural soil moisture is over four percent less than optimum moisture. The unit cost is based on the cubic yards of liner and cover. It includes moisture conditioning, compaction, and soil cover. [3]	CuYd	$3.18
550	**Range Planting**			
		Native Grass Seeding	Acre	$65.03
		Native Grass and Forb Seeding	Acre	$76.65

Practice Code	Practice Name	Activity	Unit	Payment Rate
574	**Spring Development**			
		Installation of a spring development which includes the collector pipe, delivery pipe, and storage facility (spring box). The unit cost is each spring development system installed.	Each	$1,879.20
580	**Streambank and Shoreline Protection**			
		Protection of streambanks using bioengineering techniques such as willow poles and cedar tree revetments. The unit cost is based on linear feet of streambank protected.	LnFt	$14.07
		Protection of streambanks using gabions or mattresses. The unit cost is tons of rock installed and includes all required excavation and earthfill, geotextile, erosion control blankets, and other materials.	Ton	$52.15
		Protection of streambanks using rock armor at the toe or rock vanes and weirs. The unit cost is based on the tons of rock installed and includes all materials and required earthwork.	Ton	$42.48
587	**Structure for Water Control**			
		Installation of an inline water control structure for an eight inch diameter pipe. The installation includes the structure, inlet and outlet pipes, bar guard, back flap, and backfill. The unit cost is based on the height in feet of the structure.	Ft	$158.98
		Installation of an inline water control structure for a 10 inch diameter pipe. The installation includes the structure, inlet and outlet pipes, bar guard, back flap, and backfill. The unit cost is based on the height in feet of the structure.	Ft	$200.02
		Installation of an inline water control structure for a 12 inch diameter or larger pipe. The installation includes the structure, inlet and outlet pipes, bar guard, back flap, and backfill. The unit cost is based on the height in feet of the structure.	Ft	$255.02
595	**Pest Management**			
		Pest Management Selective Herbicide - Broadcast/Spot Treatment [5]	Acre	$19.31
		Pest Management Mechanical	Acre	$9.00
		Pest Management Tree Establishment - Selective Herbicide - Spot Treatment	Acre	$19.31
603	**Herbaceous Wind Barriers**			
		Introduced Grass Seeding	Acre	$46.88
		Introduced Grass Seeding With Fertilizer Application	Acre	$57.23
		Native Grass and Forb Seeding	Acre	$76.65
		Native Grass Seeding	Acre	$65.03
612	**Tree/Shrub Establishment**			
		Balled Seedling greater than 18 inches - Planting	Each	$4.72
		Balled Seedling less than or equal to 18 inches - Planting	Each	$1.76
		Container Seedling Planting	Each	$1.69
		Bareroot Seedling Planting	Each	$1.19

Practice Code	Practice Name	Activity	Unit	Payment Rate
614	**Watering Facility**			
		Installation of a manufactured waterer or earth covered tank. The capacity is usually less than 200 gallons and the flow is regulated by a valve. The unit cost is each facility installed and includes field preparation, concrete base, and plumbing.	Each	$738.91
		A collection device and watering facility for wildlife. The unit cost is each facility installed and includes all materials and labor to construct and install the facility and all components.	Each	$370.13
		Installation of a tank of any approved material. The unit cost is based on the design volume in gallons and includes all field preparation, concrete, sand base, gravel apron, and plumbing as needed.	Gallon	$0.77
		Installation of a large storage tank to provide additional storage for low capacity systems reduce pipeline size requirements. The unit cost is based on the design volume in gallons and includes field preparation, gravel base or platform, and plumbing.	Gallon	$0.42
638	**Water and Sediment Control Basin**			
		Installation of a water and sediment control basin constructed to capture sediment and slowly release water. The unit cost is based on the volume of earthfill in cubic yards in the embankment or ridge.	CuYd	$1.39
642	**Water Well**			
		Installation of a drilled well with a minimum five inch diameter casing and well head protection. The unit cost is based on the depth of the completed well in feet.	Ft	$12.91
643	**Restoration and Management of Declining Habitats**			
		Native Grass and Forb Seeding	Acre	$88.28
645	**Upland Wildlife Habitat Management**			
		Coppicing	Acre	$300.00
		Native Grass Seeding	Acre	$65.03
		Conversion from Introduced to Native Species	Acre	$76.73
		Interseeding Native Forbs into Existing Stand	Acre	$33.53
		Native Grass and Forb Seeding	Acre	$76.65
650	**Windbreak/Shelterbelt Renovation**			
		Container Seedling Additions	Each	$1.69
		Bareroot Seedling Additions	Each	$1.19
		Tree/Shrub Removal	LnFt	$0.57
657	**Wetland Restoration**			
		Restoration of a depressional wetland by removing accumulated sediment. The unit cost is based on acres of wetland area restored.	Acre	$1,123.90
		Restoration of a wetland by removing or filling a drainage system and restoring microtopography. The unit cost is based on the acres of wetland area restored.	Acre	$242.20
658	**Wetland Creation**			
		Create new wetland area by filling natural swales or ditches and excavating associated microtopography. The unit cost is based on the acres of wetland area created.	Acre	$535.02

Practice Code	Practice Name	Activity	Unit	Payment Rate
659	**Wetland Enhancement**			
		Enhance the wetland functions of a depressional wetland by removing selected portions of accumulated sediment. The unit cost is based on the acres of wetland area enhanced.	Acre	$337.17
		Enhance the wetland functions of a degraded wetland by plugging natural drains and excavating areas to increase microtopography. The unit cost is based on the acres of wetland area enhanced.	Acre	$126.32
666	**Forest Stand Improvement**			
		Thinning	Acre	$88.50
	[1]	Practice eligible when supporting Natural Resources Conservation Service (NRCS) practice code, 646, Shallow Water Development and Management in the Wildlife Habitat Development Plan (WHDP).		
	[2]	Practice eligible when supporting NRCS practice codes 380, 391, 612 or 650.		
	[3]	Practice will be included within the $3,500 limit when supporting NRCS practice code 378.		
	[4]	Practice eligible when supporting NRCS practice codes 574 or 614.		
	[5]	Broadcast and aerial treatment will be eligible only where mechanical or spot treatment are not practical. If broadcast or aerial treatment is needed, justification will be documented in the producer's case file.
