#### **Land Uses and Modifiers**

| Land Use           | Grazed | Wildlife | Irrigated | Hayed | Drained | Organic | Water Feature | Protected | Urban | Aquaculture |
|--------------------|--------|----------|-----------|-------|---------|---------|---------------|-----------|-------|-------------|
| Associated Ag Land |        |          |           |       | N/A     |         |               |           |       |             |
| Crop               |        |          |           |       |         |         |               |           |       |             |
| Farmstead          |        |          |           | N/A   | N/A     |         |               |           |       |             |
| Pasture            |        |          |           |       |         |         |               |           |       |             |
| Water              | N/A    |          | N/A       | N/A   | N/A     |         |               |           |       |             |

#### **Resource Concern Categories**

| Categories                                 |       |           |       |  |  |
|--|-------|-----------|-------|--|--|
| Category                                   | Min % | Default % | Max % |  |  |
| Air quality emissions                      | 0     | 2         | 100   |  |  |
| Aquatic habitat                            | 0     | 2         | 100   |  |  |
| Concentrated erosion                       | 0     | 15        | 100   |  |  |
| Degraded plant condition                   | 0     | 2         | 100   |  |  |
| Field pesticide loss                       | 0     | 2         | 100   |  |  |
| Field sediment, nutrient and pathogen loss | 0     | 2         | 100   |  |  |
| Fire management                            | 0     | 2         | 100   |  |  |
| Inefficient energy use                     | 0     | 2         | 100   |  |  |
| Livestock production limitation            | 0     | 5         | 100   |  |  |
| Pest pressure                              | 0     | 2         | 100   |  |  |
| Salt losses to water                       | 0     | 2         | 100   |  |  |
| Soil quality limitations                   | 0     | 20        | 100   |  |  |
| Source water depletion                     | 0     | 2         | 100   |  |  |
| Storage and handling of pollutants         | 0     | 2         | 100   |  |  |
| Terrestrial habitat                        | 0     | 3         | 100   |  |  |

| Salt losses to water               |       |           |       |
|------------------------------------|-------|-----------|-------|
| Resource Concern                   | Min % | Default % | Max % |
| Salts transported to groundwater   | 0     | 50        | 100   |
| Salts transported to surface water | 0     | 50        | 100   |

| Soil quality limitations                  |       |           |       |
|---|-------|-----------|-------|
| Resource Concern                          | Min % | Default % | Max % |
| Aggregate instability                     | 0     | 5         | 100   |
| Compaction                                | 0     | 5         | 100   |
| Organic matter depletion                  | 0     | 85        | 100   |
| Soil organism habitat loss or degradation | 0     | 5         | 100   |

01/29/2024 Page 3 of 13

| Source water depletion           |       |           |       |
|----------------------------------|-------|-----------|-------|
| Resource Concern                 | Min % | Default % | Max % |
| Groundwater depletion            | 0     | 35        | 90    |
| Inefficient irrigation water use | 0     | 35        | 90    |
| Surface water depletion          | 0     | 30        | 90    |

| Storage and handling of pollutants  |       |           |       |
|---|-------|-----------|-------|
| Resource Concern  | Min % | Default % | Max % |
| Nutrients transported to groundwater                                      | 0     | 25        | 100   |
| Nutrients transported to surface water                                    | 0     | 25        | 100   |
| Petroleum, heavy metals and other pollutants transported to groundwater   | 0     | 25        | 100   |
| Petroleum, heavy metals and other pollutants transported to surface water | 0     | 25        | 100   |

| Terrestrial habitat                                |       |           |       |
|--|-------|-----------|-------|
| Resource Concern                                   | Min % | Default % | Max % |
| Terrestrial habitat for wildlife and invertebrates | 0     | 100       | 100   |

| Weather resilience               |       |           |       |
|----------------------------------|-------|-----------|-------|
| Resource Concern                 | Min % | Default % | Max % |
| Naturally available moisture use | 0     | 100       | 100   |

| Wind and water erosion |       |           |       |
|------------------------|-------|-----------|-------|
| Resource Concern       | Min % | Default % | Max % |
| Sheet and rill erosion | 0     | 50        | 100   |
| Wind erosion           | 0     | 50        | 100   |

# **Practices**

| Practice Name                                   | Practice Code | Practice Type |
|---|---------------|---------------|
| CNMP Design and Implementation Activity         | 101           | Activities    |
| Comprehensive Nutrient Management Plan          | 102           | Activities    |
| Forest Management Plan                          | 106           | Activities    |
| Grazing Management Plan                         | 110           | Activities    |
| Soil Health Management Plan                     | 116           | Activities    |
| Agricultural Energy Design                      | 120           | Activities    |
| Conservation Plan Supporting Organic Transition | 138           | Activities    |
| Transition to Organic Design                    | 140           | Activities    |
| Fish and Wildlife Habitat Design                | 144           | Activities    |
