Kansas WHIP Practice Payment Schedule

Fiscal Year 2009

Supplement No. 1 - 3/6/2009

Practice Code and Name	Activity Type	Unit	Payment Rate	Payment Rate - HU[1]
314 Brush Management				
	Chemical Aerial Broadcast Treatment[6]	Acre	$24.49	$29.39
	Chemical Ground Broadcast / Spot[6]	Acre	$24.02	$28.82
	Mechanical Treatment High Infestation Level	Acre	$236.25	$283.50
	Mechanical Treatment Medium Infestation Level	Acre	$118.13	$141.75
	Mechanical Treatment Low Infestation Level	Acre	$55.13	$66.15
322 Channel Bank Vegetation				
	Bareroot Seedling Planting	Each	$1.04	$1.25
	Live Willow Cuttings Planting	Each	$1.32	$1.59
	Rhizome Planting	Each	$0.58	$0.70
	Native Grass Seeding	Acre	$112.35	$134.82
332 Contour Buffer Strips				
	Introduced Grass Seeding	Acre	$59.85	$71.82
	Introduced Grass Seeding With Fertilizer Application	Acre	$75.98	$91.17
	Native Grass and Forb Seeding	Acre	$123.98	$148.77
	Native Grass Seeding	Acre	$112.35	$134.82
338 Prescribed Burning				
	Prescribed Burning	Acre	$5.25	$6.30
340 Cover Crop				
	Cover Crop	Acre	$28.80	$34.56
342 Critical Area Planting				
	Bermuda Grass Sprigging	Acre	$139.94	$167.92
	Bermuda Grass Sprigging With Fertilizer Application	Acre	$156.06	$187.27
	Introduced Grass Seeding	Acre	$59.85	$71.82
	Introduced Grass Seeding With Fertilizer Application	Acre	$75.98	$91.17
	Native Grass Seeding	Acre	$112.35	$134.82
356 Dike				
	Any type of dike installation. The unit cost is the linear feet (LnFt) of dike installed.[2]	LnFt	$4.56	$5.47
362 Diversion				
Supp. #1-3/6/09	A diversion installed with a ridge and channel. The unit cost is the cubic yards (CuYd) of earthfill in the installed diversion.[2]	CuYd	$1.66	$1.99

Practice Code and Name	Activity Type	Unit	Payment Rate	Payment Rate - HU[1]
378 Pond ($3,500 limit per contract)				
	A small embankment pond that does not require a permit from Kansas Department of Agriculture, Division of Water Resources (KDA/DWR) to construct. The unit cost is based on the cubic yards of earthfill in the embankment, including the earthfill in the cutoff trench.	CuYd	$2.29	$2.75
	An embankment pond that requires a permit from KDA/DWR to construct. The unit cost is based on the cubic yards of earthfill in the embankment, including the earthfill in the cutoff trench.	CuYd	$2.47	$2.97
	A small excavated pond where the excavated material is placed in a spoil pile. The unit cost is based on the cubic yards of excavation in the pond.	CuYd	$1.99	$2.39
	A small excavated pond with a designed embankment. The unit cost is based on the cubic yards of excavation in the pond.	CuYd	$2.13	$2.55
380 Windbreak/Shelterbelt Establishment				
	Balled Seedling greater than 18 inches - Planting	Each	$4.72	$5.67
	Balled Seedling less than or equal to 18 inches - Planting	Each	$1.77	$2.12
	Bareroot Seedling Planting	Each	$1.20	$1.44
	Container Seedling Planting	Each	$1.69	$2.03
382 Fence				
	Four or Five Strand Barbed or Woven Wire	LnFt	$1.26	$1.51
	Permanent Energized Electric Wire	LnFt	$0.77	$0.93
386 Field Border				
	Introduced Grass Critical Area Seeding Rate	Acre	$59.85	$71.82
	Introduced Grass Critical Area Seeding Rate With Fertilizer Application	Acre	$75.98	$91.17
	Introduced Grass Seeding	Acre	$49.20	$59.04
	Introduced Grass Seeding With Fertilizer Application	Acre	$65.33	$78.39
	Native Grass and Forb Seeding	Acre	$80.85	$97.02
	Native Grass Seeding	Acre	$69.23	$83.07
	Native Grass Critical Area Seeding Rate	Acre	$112.35	$134.82
391 Riparian Forest Buffer				
	Bareroot Seedling Planting	Each	$1.20	$1.44
	Bareroot Seedling Planting with Tree Shelter	Each	$5.14	$6.16
	Container Seedling Planting	Each	$1.69	$2.03
	Container Seedling Planting with Tree Shelter	Each	$5.63	$6.76
	Direct Seeding	Acre	$170.60	$204.71
393 Filter Strip				
	Introduced Grass Critical Area Seeding Rate	Acre	$59.85	$71.82
	Introduced Grass Critical Area Seeding Rate With Fertilizer Application	Acre	$75.98	$91.17
	Introduced Grass Seeding	Acre	$49.20	$59.04
	Introduced Grass Seeding With Fertilizer Application	Acre	$65.33	$78.39
	Native Grass and Forb Seeding	Acre	$80.85	$97.02
	Native Grass Critical Area Seeding Rate	Acre	$112.35	$134.82
	Native Grass Seeding	Acre	$69.23	$83.07

Practice Code and Name	Activity Type	Unit	Payment Rate	Payment Rate - HU[1]
394 Firebreak				
	Introduced Grass Border Seeding	Acre	$49.20	$59.04
	Introduced Grass Border Seeding with Fertilizer Application	Acre	$65.33	$78.39
	Clean Tillage	Acre	$7.13	$8.55
Supp. #1-3/6/09	Mowing	Acre	$29.25	$35.10
412 Grassed Waterway				
	Placing topsoil from a stockpile in the bottom of a grassed waterway as required by the design due to special conditions. The unit cost is based on the acres of waterway shaped.	Acre	$842.54	$1,011.05
	Shaping and/or grading of a grassed waterway to the design dimensions. The unit cost is based on the acres of waterway shaped.	Acre	$1,429.31	$1,715.18
422 Hedgerow Planting				
	Bareroot Seedling Planting	Each	$1.20	$1.44
	Container Seedling Planting	Each	$1.69	$2.03
430DD Irrigation Water Conveyance, Pipeline, High-Pressure, Underground, Plastic				
	Installation of a two inch or smaller plastic pipe as the supply line for micro-irrigation of trees or shrubs. The unit cost is based on the linear feet of pipe installed and includes all valves, connections, and other appurtenances.[3]	LnFt	$1.35	$1.63
441 Irrigation System, Microirrigation				
	Installation of a drip or trickle microirrigation system for establishment of trees or shrubs. The unit cost is based on the number of trees and/or shrubs watered and includes all pipe, valves, filters, etc.[3]	Each	$2.45	$2.94
484 Mulching				
	Erosion Control Blanket	SqYd	$0.98	$1.18
	Straw Mulch	Ton	$46.88	$56.25
	Weed Barrier - four feet by four feet squares	Each	$1.65	$1.98
	Weed Barrier Roll	LnFt	$0.38	$0.45
490 Tree/Shrub Site Preparation				
Supp. #1-3/6/09	The reforestation of an area which is equal to or less than 40 percent of the inventoried acreage.	Acre	$300.00	$360.00
Supp. #1-3/6/09	The reforestation of an area which is greater than 40 percent of the inventoried acreage.	Acre	$600.00	$720.00
512 Pasture and Hay Planting				
	Bermuda Grass Sprigging with Fertilizer Application	Acre	$130.49	$156.59
	Bermuda Grass Sprigging with Lime and Fertilizer Application	Acre	$141.20	$169.44
	Introduced Grass Seeding with Fertilizer Application	Acre	$65.33	$78.39
	Introduced Grass Seeding with Lime and Fertilizer Application	Acre	$76.04	$91.24
	Native Grass Seeding	Acre	$98.10	$117.72

Practice Code and Name	Activity Type	Unit	Payment Rate	Payment Rate - HU[1]
516 Pipeline				
	Installation of a two inch or smaller pipe in an embankment dam as the water supply line for livestock water. The unit cost is based on the linear feet of pipe installed to a watering facility within 100 feet of the embankment and includes all appurtenances.[5]	LnFt	$2.23	$2.68
	Installation of a two inch diameter or smaller plastic pipe as the supply line for livestock water. The unit cost is based on the linear feet of pipe installed and includes appurtenances such as air and pressure relief valves, hydrants, etc.[5]	LnFt	$1.35	$1.62
	Siphon - Installation of a siphon pipe, two inch diameter or smaller, in or around an embankment dam as a water supply line. The unit cost is based on the linear feet of pipe installed to a watering facility within 100 feet of the embankment, including all appurtenances.[5]	LnFt	$3.47	$4.17
	Installation of a large storage tank to reduce pipeline size or pressure requirements. The unit cost is based on the design volume in gallons and includes field preparation, gravel base or platform, and plumbing.[5]	Gallon	$0.45	$0.55
521B Pond Sealing or Lining, Soil Dispersant				
	Added Moisture - Installation of a compacted clay soil liner treated with a soil dispersant and substantial additional moisture. The unit cost is based on the cubic yards of liner and cover. It includes the dispersant, moisture conditioning, and compaction.[4]	CuYd	$4.94	$5.93
	Natural Moisture - Installation of a compacted clay soil liner treated with a soil dispersant and limited additional moisture. The unit cost is based on the cubic yards of liner and cover. It includes the dispersant, moisture conditioning, and compaction.[4]	CuYd	$4.56	$5.47
521C Pond Sealing or Lining, Bentonite Sealant				
	Installation of a compacted soil liner treated with bentonite. The unit cost is based on the cubic yards of liner and cover. It includes the bentonite material, moisture conditioning, compaction, and soil cover.[4]	CuYd	$26.20	$31.44
521D Pond Sealing or Lining, Compacted Clay Treatment				
Supp. #1-3/6/09	Added Moisture - Installation of compacted clay soil liner where natural soil moisture is over four percent less than optimum moisture. The unit cost is based on the cubic yards of liner and cover. It includes moisture conditioning, compaction, and soil cover.[4]	CuYd	$3.63	$4.36
Supp. #1-3/6/09	Natural Moisture - Installation of a compacted clay soil liner where the natural soil moisture is within three percent of optimum moisture. The unit cost is based on the cubic yards of liner and cover. It includes moisture conditioning, compaction, and soil cover.[4]	CuYd	$3.16	$3.79
550 Range Planting				
	Native Grass and Forb Seeding	Acre	$80.85	$97.02
	Native Grass Seeding	Acre	$69.23	$83.07

Practice Code and Name	Activity Type	Unit	Payment Rate	Payment Rate - HU[1]
574 Spring Development				
	Installation of a spring development which includes the collector pipe, delivery pipe, and storage facility (spring box). The unit cost is each spring development system installed.	Each	$1,934.25	$2,321.10
580 Streambank and Shoreline Protection				
	Protection of streambanks using bioengineering techniques such as willow poles and cedar tree revetments. The unit cost is based on linear feet of streambank protected.	LnFt	$11.28	$13.53
	Protection of streambanks using gabions or mattresses. The unit cost is cubic feet (CuFt) of gabion or mattress installed and includes all required excavation and earthfill, geotextile, erosion control blankets, and other materials.	CuFt	$3.57	$4.28
	Protection of streambanks using rock armor at the toe or rock vanes and weirs. The unit cost is based on the tons of rock installed and includes all materials and required earthwork.	Ton	$42.81	$51.37
587 Structure for Water Control				
	Installation of an inline water control structure for an eight inch diameter pipe. The installation includes the structure, inlet and outlet pipes, bar guard, back flap, and backfill. The unit cost is based on the height in feet of the structure.	Feet	$203.32	$243.99
	Installation of an inline water control structure for a 10 inch diameter pipe. The installation includes the structure, inlet and outlet pipes, bar guard, back flap, and backfill. The unit cost is based on the height in feet of the structure.	Feet	$249.75	$299.69
	Installation of an inline water control structure for a 12 inch diameter or larger pipe. The installation includes the structure, inlet and outlet pipes, bar guard, back flap, and backfill. The unit cost is based on the height in feet of the structure.	Feet	$316.99	$380.39
589C Cross Wind Trap Strips				
Supp. #1-3/6/09	Introduced Grass Critical Area Seeding Rate	Acre	$59.85	$71.82
Supp. #1-3/6/09	Introduced Grass Critical Area Seeding Rate With Fertilizer Application	Acre	$75.98	$91.17
Supp. #1-3/6/09	Introduced Grass Seeding	Acre	$49.20	$59.04
Supp. #1-3/6/09	Introduced Grass Seeding with Fertilizer Application	Acre	$65.33	$78.39
Supp. #1-3/6/09	Native Grass Critical Area Seeding Rate	Acre	$112.35	$134.82
Supp. #1-3/6/09	Native Grass Seeding	Acre	$69.23	$83.07
595 Pest Management				
	Pest Management Mechanical	Acre	$9.00	$10.80
	Pest Management Selective Herbicide - Broadcast/Spot Treatment[6]	Acre	$19.39	$23.27
	Pest Management Tree Establishment - Selective Herbicide - Spot Treatment	Acre	$37.05	$44.46
603 Herbaceous Wind Barriers				
	Introduced Grass Seeding	Acre	$49.20	$59.04
	Introduced Grass Seeding With Fertilizer Application	Acre	$65.33	$78.39
	Native Grass and Forb Seeding	Acre	$80.85	$97.02
	Native Grass Seeding	Acre	$69.23	$83.07

Practice Code and Name	Activity Type	Unit	Payment Rate	Payment Rate - HU[1]
612 Tree/Shrub Establishment				
	Balled Seedling greater than 18 inches - Planting	Each	$4.72	$5.67
	Balled Seedling less than or equal to 18 inches - Planting	Each	$1.77	$2.12
	Bareroot Seedling Planting	Each	$1.20	$1.44
	Bareroot Seedling Planting with Tree Shelter	Each	$5.14	$6.16
	Container Seedling Planting	Each	$1.69	$2.03
	Container Seedling Planting with Tree Shelter	Each	$5.63	$6.76
	Direct Seeding	Acre	$170.60	$204.71
614 Watering Facility				
	A collection device and watering facility for wildlife. The unit cost is each facility installed and includes all materials and labor to construct and install the facility and all components.	Each	$444.94	$533.93
	Installation of a manufactured waterer or earth covered tank. The capacity is usually less than 200 gallons and the flow is regulated by a valve. The unit cost is each facility installed and includes field preparation, concrete base, and plumbing.	Each	$884.34	$1,061.21
	Installation of a tank of any approved material. The unit cost is based on the design volume in gallons and includes all field preparation, concrete, sand base, gravel apron, and plumbing as needed.	Gallon	$1.02	$1.22
638 Water and Sediment Control Basin				
Supp. #1-3/6/09	Installation of a water and sediment control basin constructed to capture sediment and slowly release water. The unit cost is based on the volume of earthfill in cubic yards in the embankment or ridge.	CuYd	$1.75	$2.10
642 Water Well				
	Installation of a drilled well with a minimum five inch diameter casing and well head protection. The unit cost is based on the depth of the completed well in feet.	Feet	$14.88	$17.86
643 Restoration and Management of Declining Habitats				
	Native Grass and Forb Seeding	Acre	$92.48	$110.97
645 Upland Wildlife Habitat Management				
	Conversion from Introduced to Native Species	Acre	$86.55	$103.86
	Coppicing	Acre	$300.00	$360.00
	Interseeding Native Forbs into Existing Stand	Acre	$34.58	$41.49
	Native Grass and Forb Seeding	Acre	$80.85	$97.02
	Native Grass Seeding	Acre	$69.23	$83.07
650 Windbreak/Shelterbelt Renovation				
	Bareroot Seedling Additions	Each	$1.20	$1.44
	Container Seedling Additions	Each	$1.69	$2.03
	Tree/Shrub Removal	LnFt	$0.76	$0.91
657 Wetland Restoration				
	Restoration of a depressional wetland by removing accumulated sediment. The unit cost is based on acres of wetland area restored.	Acre	$2,541.00	$3,049.20
	Restoration of a wetland by removing or filling a drainage system and restoring microtopography. The unit cost is based on the acres of wetland area restored.	Acre	$766.28	$919.53

Practice Code and Name	Activity Type	Unit	Payment Rate	Payment Rate - HU[1]
658 Wetland Creation				
	Create new wetland area by excavating an area below existing ground level. The unit cost is based on the acres of wetland area created.	Acre	$2,674.74	$3,209.68
	Create new wetland area by filling natural swales or ditches and excavating associated microtopography. The unit cost is based on the acres of wetland area created.	Acre	$840.88	$1,009.06
659 Wetland Enhancement				
	Enhance the wetland functions of a degraded wetland by plugging natural drains and excavating areas to increase microtopography. The unit cost is based on the acres of wetland area enhanced.	Acre	$461.12	$553.34
	Enhance the wetland functions of a depressional wetland by removing selected portions of accumulated sediment. The unit cost is based on the acres of wetland area enhanced.	Acre	$401.21	$481.45
666 Forest Stand Improvement				
	Thinning	AC	$88.50	$106.20

[1] Historically Underserved (HU) - Beginning Farmer/Rancher, Limited Resource Farmer/Rancher, and Socially Disadvantaged Farmer/Rancher are eligible for a higher payment rate.

[2] Practice is eligible when supporting Natural Resources Conservation Service (NRCS) practice code 646, Shallow Water Management for Wildlife and in the Wildlife Plan of Operations (WPO).

[3] Practice eligible when supporting NRCS practice codes 380, 391, 612, or 650.

[4] Practice will be included within the $3,500 limit when supporting NRCS practice code 378.

[5] Practice eligible when supporting NRCS practice codes 574 or 614.

[6] Broadcast and aerial treatment will be eligible only where mechanical or spot treatment are not practical. If broadcast or aerial treatment is needed, justification will be documented in the producer's case file.
