# Volunteers Needed
# 37th Annual Butterfly Count
# North American Butterfly Association

## Wednesday, July 13, 2011
## Manhattan Plant Materials Center
## 9:00 a.m. – 2:30 p.m.

**Register by Monday, *July 11,* or for more information,**
**please call 785-539-8761**

Dress appropriately and bring a sack lunch, binoculars, field guides, and camera (if you have them). Volunteers around North America select a count area 15 miles in diameter and conduct a one-day census of all butterflies observed within that circle. The count program is intended to promote interest in butterflies and provide results useful for scientific monitoring of this beautiful and fascinating group of insects. While knowledge of butterflies is a plus, it is not necessary.

**Manhattan Plant Materials Center (PMC)**
**3800 South 20th Street**
**Manhattan, KS 66502**
