NEW MEXICO BULLETIN NO. 180-12-06

SUBJECT: CPA – CONSERVATION DELIVERY STREAMLINING INITIATIVE (CDSI) TECHNICAL FOUNDATION TRAINING (TFT) MATERIALS AVAILABLE ON STATE SHAREPOINT

TO: All Employees

Purpose. To advise all employees.

Expiration Date. December 31, 2012

CDSI Technical Foundation Training (TFT) is required for all NRCS New Mexico employees who are involved with conservation planning. Some employees were unable to attend the web-based training held August 23 and 24, 2012.

The TFT powerpoint presentations are now available on the main page of the New Mexico SharePoint site in the Shared Documents section. Those employees required to take the training are to review the eight presentations and certify to their supervisors that they have completed the training. All affiliate employees who work in planning and missed the August training should also view the powerpoints. Employees who attended the web-based training do not need to review the presentations but are to certify to their supervisor that they have completed the training as well.

Presentations are numbered sequentially and should be viewed in order, i.e., TFT#1, 2A, 2B, 3, 4, 6, 7, and 8. Please note that there is no presentation TFT#5.

If you have any questions, please contact Maureen Murphy, Resource Conservationist, at (505) 761-4418, or maureen.murphy@nm.usda.gov.
