General Comment

this agency is a branch of usda. this agency is making use of taxpayer dollars to spend these tax dollars for agribusiness. i personally have never met a farmer who did not want wildlife dead in the ground. so if monies from general taxpayers are going to nrCS for them to give to farmers, you can be sure no wildlife in the entire united states is allowing any wildlife to live. and if they do let any live it is not because of nrCS. this agency should be put down. it does absolutely nothing to save wildlife lives. it goes along with poisons like 440 put on lands to kill wildlife. it gives most of its money to agribusiness and agribusiness does not let wildlife live. they shoot it to death. they shoot it and bury it and have a saying about doing that. agribusiness asked aphs to murder over 3 million blackbirds in the dakotas not long ago., that gives you an idea of how wildlife or birds die in agribusiness lands. i simply think this agency is nothing but a fraud and needs complete disassembly. if we are going to help wildlife, we need wildlife advocates to do it, not those who specialize in working for agribusiness under usda, the skanky scandal plagued agency in corrupt washington dc.
