

Range Enhancement Bundle –BRA09 (Addresses multiple resource concerns)

Enhancement Description

This bundle of enhancement activities includes: ANM09-Grazing management to improve wildlife habitat; ANM11-Patch-burning to enhance wildlife habitat; ANM26-Managing calving to coincide with forage availability, ANM27-Wildlife friendly fencing, and WQL13-High level IPM to reduce pesticide environmental risk.

Land Use Applicability

Range

Benefits

This bundle of enhancements is focused on activities that increase wildlife habitat, improve forage utilization and mitigate environmental risk associated with pesticide use. Implementing these activities together creates a synergy that should result in more conservation benefits than might be expected from the individual activities. Applicants that choose to implement this bundle of activities will receive an increase in ranking and activity points.

Conditions Where Enhancement Applies

This enhancement applies to all range land use acres.

Criteria

Bundle rules

1. All of the activities in the bundle must be implemented. However, if an applicant is already implementing 1 or 2 of the activities, they are still eligible for the bundle and only need to implement the remaining 3 or 4 activities.
2. Applicants will be required to install all enhancements in the bundle wherever they are needed on the applied area.
3. Other enhancements cannot be substituted for those in the bundles.
4. Applicants choose the acres of their operation where they want to implement the bundle. If the applicant chooses to implement the activity on only a portion of their operation, their ranking and performance points will be reduced proportionally.
5. The amount of the bundle that can be scheduled cannot exceed the most limiting individual “system” enhancement scheduled.

Follow the criteria in the respective enhancement activity sheets to implement each enhancement.

For this bundle implement ANM09, ANM11, ANM26, ANM27 and WQL13 according to their respective criteria on all of the area selected for bundle application.

United States Department of Agriculture
Natural Resources Conservation Service

2014 Ranking Period 1

Adoption Requirements

This enhancement is considered adopted when rules # 1 and 2 from “Rules for Enhancement Activity Bundles” above have been fulfilled.

Documentation Requirements

Follow the documentation requirements in the respective enhancement activity sheets to document the implementation of each enhancement.

In addition, document the actual amount, fields and when each enhancement in the bundle is implemented:

Enhancement Activity	Amount (unit)	Field(s) Number or Name	Year Applied
ANM09			
ANM11			
ANM26			
ANM27			
WQL13
