U.S. DEPARTMENT OF AGRICULTURE

Archeologist

NATURAL RESOURCES CONSERVATION SERVICE

# Archeologist

## Duties

As an Archeologist, you will serve as the staff specialist with primary responsibility for the conservation and protection of cultural resources associated with conservation management related undertakings. You will define areas of cultural resource and environmental concerns, and design and implement methodologies to address such concerns. You will also provide technical support and archeological fieldwork for all aspects of the cultural resource program, and serve as liaison to federal, state, tribal, and local agencies involved in cultural resources issues.

## Qualifications

### A. Education

1. Degree in Archeology. Other related degree programs that may qualify, but not limited to include: anthropology, history, American studies, or a related discipline.
2. Archeological field school is also required.

A. **Important Note:** The qualification requirements for the Archeology Series is somewhat complex and involves specific college course work and training. For complete qualification criteria, please scan the following QR code [Insert QR Code to OPM 0193 series here]; or, Visit the Office of Personnel Management (OPM) website [Archeology Qualification Standard](#)
