

AGRICULTURAL CONSERVATION EASEMENT PROGRAM
AGRICULTURAL LAND EASEMENT
MINIMUM DEED TERMS FOR THE PROTECTION OF AGRICULTURAL USE

1) When these terms are appended as an exhibit to the Agricultural Land Easement deed, as opposed to being inserted directly into an Agricultural Land Easement deed, this paragraph will be inserted at the bottom of the ACEP funded Agricultural Land Easement deed:

This Agricultural Land Easement is acquired with funds provided, in part, under the Agricultural Conservation Easement Program (ACEP). The EXHIBIT ____ is attached hereto and incorporated herein by reference and will run with the land in perpetuity [or for the maximum duration allowed under applicable State laws]. As required by 16 U.S.C. Section 3865 et seq. and 7 CFR Part 1468 et seq. and as a condition of receiving ACEP funds, all present and future use of the Protected Property identified in EXHIBIT ____ (legal description or survey) is and will remain subject to the terms and conditions described forthwith in this Addendum entitled Minimum Deed Terms For The Protection Of Agricultural Use in EXHIBIT ____ that is appended to and made a part of this easement deed.

2) A fully executed copy of the Exhibit below must be attached to the ACEP funded Agricultural Land Easement Deed at the time of closing and recordation or, with NRCS approval, the terms below must be incorporated into the body of the Eligible Entity's Agricultural Land Easement deed, substituting where desired, the defined term for the Parcel instead of "Protected Property":

EXHIBIT ____

MINIMUM TERMS FOR AGRICULTURAL LAND EASEMENTS

The Agricultural Conservation Easement Program, 16 U.S.C Section 3865 et seq., facilitated and provided funding for the purchase of an Agricultural Land Easement (ALE) on real property described in Exhibit _____, hereafter referred to as "the Protected Property", for the purpose of [**SELECT ONE:** *protecting the agricultural use and future viability, and related conservation values, by limiting nonagricultural uses* **OR** *protecting grazing uses and related conservation values by restoring and conserving*] the Protected Property.

The [**LANDOWNER NAMES**] (collectively Grantor), the [**ELIGIBLE ENTITY NAMES**] (collectively Grantee), and the **United States of America** (the United States), acting by and through the United States Department of Agriculture (USDA) Natural Resources Conservation Service (NRCS) on behalf of the Commodity Credit Corporation (CCC) (jointly referred to as the "Parties") acknowledge that the ALE is acquired by the Grantee to [**SELECT ONE:** *protect the agricultural use and future viability, and related conservation values, by limiting nonagricultural uses* **OR** *protect grazing uses and related conservation values by restoring and conserving*] the Protected Property. Baseline conditions of the Protected Property are set forth in a Baseline Documentation Report, a copy of which is [**SELECT ONE:** *appended to this*

easement deed OR maintained in the files of the Grantee]. Notwithstanding any other provision of the ALE, the Parties agree that all present and future use of the Protected Property is and will remain subject to all of the following terms and conditions identified in Section I and II. If the terms and conditions in Section I and II are inconsistent with terms and conditions in other sections of the ALE, Section I and II will control. If other sections of the of the ALE have terms and conditions that are consistent with, but more restrictive than the terms and conditions in Section I, Paragraphs 1, 2, and 3, those more restrictive terms and conditions will control. If other sections of the ALE are more restrictive than Section I Paragraph 4 and Section II then Section I Paragraph 4 and Section II will control.

SECTION I - MINIMUM CONSERVATION DEED RESTRICTIONS

Even if the Protected Property consists of more than one parcel for real estate tax or any other purpose or if it may have been acquired previously as separate parcels, it will be considered one parcel for purposes of this Easement, and the restrictions and covenants of this Easement will apply to the Protected Property as a whole.

The Grantor and Grantee and their respective heirs, successors, agents, assigns, lessees, and any other person claiming under them must comply with all terms and conditions of this easement, including the following:

1. Agricultural Land Easement Plan. As required by 16 U.S.C. Section 3865a, agricultural production and related uses of the Protected Property are subject to an ALE Plan, as approved NRCS, to promote the long-term viability of the land to meet the ALE purposes. The ALE Plan must also be approved by the Grantor and the Grantee. Grantor agrees the use of the property will be subject to the ALE Plan on the Protected Property.

The ALE Plan is incorporated by reference and must not include any provisions inconsistent with the conservation purposes of this ALE. The Grantee and Grantor agree to update the Plan in the event the agricultural uses of the Protected Property change. A copy of the current ALE Plan is kept on file with the Grantee.

The Grantee must take all reasonable steps to secure compliance with the ALE Plan. In the event of substantial or ongoing noncompliance with the ALE Plan or the requirement to update the Plan, NRCS may notify the Grantee. NRCS will give the Grantee and Grantor a reasonable amount of time, not to exceed 180 days, to take corrective action. If Grantee fails to enforce the terms of the ALE, including, but not limited to compliance with the ALE Plan, the United States may exercise its right of enforcement.

2. Limitation on Impervious Surfaces. Impervious surfaces will not exceed [**Insert approved impervious surface percentage**] [*Note: if greater than 2 percent, a written waiver from the Chief of NRCS or his or her authorized designee (Chief of NRCS) is required*], of the Protected Property, excluding NRCS-approved conservation practices. Impervious surfaces are defined as material that does not allow water to percolate into the soil on the Protected Property;

including, but not limited to, residential buildings, agricultural buildings with or without flooring, paved areas, and any other surfaces that are covered by asphalt, concrete, or roofs. This limitation does not include public roads or other roads owned and controlled by parties with rights superior to those rights conveyed to Grantee by this ALE.

Include the following if limited subdivision is allowed below: [In the event the Protected Property is subdivided as provided for in Section I, Paragraph (3)(A), the total cumulative impervious surface of the subdivided parcels must not exceed the impervious surface limitation referenced above. The Grantor, with Grantee approval, will allocate the impervious surface limit among the subdivided parcels and ensure said impervious surface limitation is clearly defined in each subdivided parcel's recorded instrument.]

3. Limitations on Nonagricultural Uses. Any activities inconsistent with the purposes of the ALE are prohibited. *[Note: The term "ALE grassland enrollments" refers to both general ALE grazing uses enrollments or ALE Grassland of Special Environmental Significance enrollments (GSS).]* **[Also include the following sentence for ALE grassland enrollments:** The provisions of this ALE limit the types of agricultural operations that can occur on the Protected Property to those that restore or conserve grassland, and protect grazing uses, and related conservation values]. The following activities are inconsistent with the purposes of ALE and specifically prohibited, subject to the qualifications stated below:

(A) Subdivision – [Select Option 1, 2, or 3.]

[Option 1] Separate conveyance of a portion of the Protected Property or division or subdivision of the Protected Property is prohibited, except where State or local regulations explicitly require subdivision to construct residences for employees working on the Protected Property. Grantor must provide written notice and evidence of such requirements to Grantee and the Chief of NRCS or his or her authorized designee (Chief of NRCS) prior to division of the Protected Property.

[Option 2] The Protected Property must not be divided or subdivided into, or separately conveyed as, more than _____ farm or ranch parcels (____ divisions allowed), the boundaries and the allocation of the impervious surface limitation of which have been identified in EXHIBIT ____, which is appended to and made a part of this ALE. To protect the **[SELECT ONE: agricultural use and future agricultural viability OR the grassland, grazing uses]**, and related conservation values of the Protected Property, the boundaries of such divisions have been preapproved in writing by Grantee and the Chief of NRCS or his or her authorized designee (Chief of NRCS). Deviations from the identified boundaries will not be allowed. Grantor must give Grantee and the Chief of NRCS written notice prior to subdividing, dividing or separately conveying a parcel of the Protected Property.

[Option 3] The Protected Property must not be divided or subdivided into, or separately conveyed as, more than _____ farm or ranch parcels (____ divisions allowed). To

protect the [**SELECT ONE:** *agricultural use and future agricultural viability* **OR** *the grassland, grazing uses*], and related conservation values of the Protected Property, the boundaries of such divisions must be approved in writing by Grantee and the Chief of NRCS or his or her authorized designee (Chief of NRCS) before any such division, subdivision or separate conveyance occurs. The Chief of NRCS may only approve the division, subdivision or separate conveyance of the Protected Property into separately conveyable farm or ranch parcels when—

1. The Grantee requests the Chief of NRCS approval to subdivide the Protected Property into separate farm or ranch parcels, after receiving a request from the Grantor;

2. The Grantor certifies to the Chief of NRCS that the requested subdivision is required to keep all farm or ranch parcels in production and viable for agriculture use and that separate conveyance of the Protected Property farm or ranch parcels will move the land from one agricultural operation to another; and

3. The Chief of NRCS determines that the—

a. Parcels resulting from the subdivision of the Protected Property will meet ACEP land eligibility requirements of 16 U.S.C. Section 3865 et seq. as enacted on the date the original parcel was enrolled in ACEP, including the allocation of the impervious surface limitation between the subdivided parcels, and

b. The resulting parcel will not be below the median size of farms in the county or parish as determined by most recent United States Department of Agriculture's National Agricultural Statistical Survey (NASS).

(B) *Industrial or Commercial Uses* – Industrial or commercial activities on the Protected Property are prohibited except for the following:

(i) agricultural production and related uses conducted as described in the ALE Plan;

(ii) the sale of excess power generated in the operation of alternative energy structures and associated equipment or other energy structures that Grantee approves in writing as being consistent with the conservation purposes of this Easement;

(iii) temporary or seasonal outdoor activities or events that do not harm the agricultural use, future viability, and related conservation values of the Protected Property herein protected;

(iv) commercial enterprises related to agriculture or forestry including but not limited to agritourism, processing, packaging, and marketing of farm or forest

products, farm machinery repair, and small-scale farm wineries; and

(v) small-scale commercial enterprises compatible with agriculture or forestry, including but not limited to cafés, shops, and studios for arts or crafts.

(C) *Construction on the Protected Property* – All new structures and improvements must be located within the Building Envelopes, containing approximately ____ acres and described in EXHIBIT ____, which is appended to and made a part of the ALE.

The boundaries and location of the Building Envelopes may be adjusted if Grantee and the Chief of NRCS provide prior written approval of the adjusted boundaries and location. The Building Envelopes may not increase in size and the adjusted Building Envelopes must provide equal or greater protection of the [**SELECT ONE:** *agricultural use and future viability* **OR** *the grassland, grazing uses*], and related conservation values of the Protected Property.

Utilities to serve approved buildings or structures, including on-farm energy structures allowed under **Section I, Paragraph (4)(C)** and agricultural structures that neither individually nor collectively have an adverse impact on the [**SELECT ONE:** *agricultural use and future viability* **OR** *grassland, grazing uses*] and related conservation values of the Protected Property, may be built outside of the Building Envelope with prior written approval of the Grantee provided that the utilities or agricultural structures are consistent with the ALE Plan described Section I, Paragraph 1.

New roads may be constructed if they are within impervious surface limits, approved in advance by Grantee, and necessary to carry out the agricultural operations or other allowed uses on the Protected Property. [**The preceding sentence must be struck for ALE grassland enrollments**].

Maintenance of existing roads documented on the Baseline Documentation Report is allowed; however, existing roads may not be widened or improved unless widening and improving is within impervious surface limits, approved in advance by Grantee, and necessary to carry out the agricultural operations or other allowed uses on the Protected Property.

Fences may be maintained and replaced and new fences installed if they are necessary for agricultural operations on the Protected Property or to mark boundaries of the Protected Property. [**For ALE grassland enrollments replace the preceding sentence with:** Fences may be maintained and replaced only in accordance with the ALE Plan. Fences must be consistent with species management requirements.]

(D) *Granting of easements for utilities and roads* – The granting or modification of easements for utilities and roads is prohibited when the utility or road will adversely impact [**SELECT ONE:** *the agricultural use and future viability* **OR** *the protection of*

the grazing uses, grassland conservation value], and related conservation values of the Protected Property as determined by the Grantee in consultation with the Chief of NRCS.

(E) *Surface Alteration* – Grading, blasting, filling, sod farming, earth removal or any other activity that will disturb the soil surface or materially alter the topography, surface or subsurface water systems, or wetlands of the Protected Property is prohibited, except as follows:

- (i) dam construction to create ponds for agricultural use, fire protection, or wildlife enhancement, or wetland restoration, enhancement or creation, in accordance with an ALE Plan;
- (ii) erosion and sediment control pursuant to a plan approved by the Grantee;
- (iii) as required in the construction of approved buildings, structures, roads, and utilities provided that the required alteration has been approved in writing by Grantee as being consistent with the conservation purpose of this Easement; or
- (iv) **[SELECT ONE: *Agricultural activities* OR *Grazing uses or grassland restoration and conservation activities*]** conducted in accordance with the ALE Plan.

(F) *Oil, Gas, or Mineral Exploration and Extraction* – Mining or extraction of soil, sand, gravel, oil, natural gas, fuel, coal, or any other mineral substance owned by Grantor as of the date of this ALE or later acquired by Grantor, using any surface mining, subsurface mining, or dredging method, from Protected Property is prohibited, except for limited mining activities for materials (e.g., sand, gravel, or shale) used for agricultural operations on the Protected Property. Extraction of materials used for agricultural operations must be limited to a small, defined area or acreage identified in EXHIBIT _____ and must not harm the conservation values or the agricultural uses of the Protected Property.

[Beginning of Alternate Oil and Gas Language: *The following may be inserted if Grantee chooses to allow oil and gas exploration and extraction as an alternative to a complete prohibition on oil or gas exploration and extraction on the Parcel:* Oil and gas exploration and extraction on the Protected Property is permitted in accordance with this Paragraph (F), if approved by Grantee and NRCS. Grantee and Grantor must demonstrate that such exploration and extraction of oil and gas is—

- (i) not accomplished by any surface mining method;
- (ii) accomplished by a method of extraction, production, and transport that has no more than a limited and localized impact that does not harm the agricultural use or conservation values of the Protected Property;

(iii) within the impervious surface limits of the ALE; and

(iv) subject to a plan that includes provisions for oil and gas exploration and extraction.

Any mineral leases or other conveyances of minerals entered into or renewed after the date of this ALE Deed are subordinate to the terms of this Deed and will incorporate by reference this Deed.

Impervious surfaces as defined in **[Insert Citation to Impervious Surface Limitation]** of this Easement will include any surface disturbance or impervious surfaces associated with oil and gas exploration and extraction associated with uses permitted by this paragraph. *End of Alternate Oil and Gas Language]*

If a third party owns or leases the oil, natural gas, or any other mineral substance at the time this ALE is executed, and their interests have not been subordinated to this ALE, the Grantor must require, to the greatest extent possible, that any oil, natural gas, and mineral exploration and extraction conducted by such third party is conducted in accordance with this paragraph (F).

(G) **[For ALE grassland enrollments]** *Crop Cultivation*. Except for grazing uses and grassland restoration and conservation permitted in **[Cite Permitted Uses Section]**, the cultivation or production of crops, nonperennial forages for human or domestic animal consumption, crop seed production, or planting of orchards, vineyards, berries, tree farms, or other perennial nongrassland agricultural product is prohibited.

4. Preserving Agricultural Uses. The provisions of this ALE Deed and associated exhibits will not be interpreted to restrict the types of agricultural operations that can function on the Protected Property, so long as the agricultural operations are consistent with the ALE Plan and do not violate Federal laws, including Federal drug laws. **[The preceding sentence must be struck for ALE grassland enrollments.]** No uses will be allowed that decrease the ALE's protection for **[SELECT ONE: the agricultural use and future viability, and related conservation values OR the grazing uses and related conservation values or adversely impact the restoration or conservation of the grassland, and related conservation values]** of the Protected Property. Allowed uses of the Protected Property include, the specific uses allowed in Section I, Paragraph (3)(B) (i)-(vii) and the following activities, subject to the qualifications stated below:

(A) *Agricultural Production* – The production, processing, and marketing of **[SELECT ONE: agricultural crops and livestock OR livestock and agricultural products compatible with restoration and conservation of grassland, grazing uses, and related conservation values]** is allowed provided it is conducted in a manner consistent with the terms of the ALE Plan described in Section I, Paragraph 1.

(B) *Forest Management and Timber Harvest* – Forest management and timber harvesting is allowed, provided it is carried out to the extent practicable, in accordance with current, generally accepted best management practices for the sites, soils, and terrain of the Protected Property. In addition, if the Protected Property contains 40 contiguous acres of forest or 20 percent of the Protected Property is forestland then forest management and timber harvesting must be performed in accordance with a written forest management plan. The forest management plan must be prepared by a professional resource manager, in consultation with the Grantee. A forest management plan will not be required for the following allowed noncommercial activities: (i) cutting of trees for the construction of allowed roads, utilities, buildings and structures on the Protected Property, (ii) cutting of trees for trail clearing, (iii) cutting of trees for domestic use as firewood or for other domestic uses by Grantor, (iv) removal of trees posing an imminent hazard to the health or safety of persons or livestock, or (v) removal of invasive species.

(C) *On-Farm Energy Production* – Renewable energy production is allowed for the purpose of generating energy for the agricultural and residential needs of the Protected Property. Renewable energy sources must be built and maintained within impervious surface limits, with minimal impact on the conservation values of the Protected Property and consistent with the purposes of the ALE.

(D) *Grassland Uses of the Protected Property* – Grantors are allowed to graze, hay, harvest for hay and noncrop seed production, mow, construct fire breaks, conduct fire suppression and rehabilitation activities, and conduct common grazing practices, including cultural practices, consistent with the provisions and conservation purposes of this ALE. The term "common grazing practices" means those practices customary to the region where the Protected Property is located related to livestock grazing, forage management, and maintenance of infrastructure required to conduct livestock grazing on the Protected Property. Grantors must not hay, mow, or harvest for seed during certain nesting seasons for birds whose populations are in significant decline as identified by Grantee or NRCS. Determinations of nesting seasons for birds whose populations are in significant decline will be made in writing to the Grantors, or set forth within the ALE Plan for the Protected Property.

[If Land Eligibility is based on the presence of historical or archaeological resources or the project received ranking points for the multifunctional benefits of agricultural land protection for historical and archaeological resources, include the following paragraph]

5. Historic or Archaeological Resources. Existing archaeologically, culturally, or historically significant features on the Protected Property including, but not limited to, such features as documented in the Baseline Documentation Report, must be maintained consistent with the guidelines provided in The Secretary of Department of the Interior's Standards for the Treatment of Historic Properties pursuant to 36 CFR Part 68, as amended. The up-to-date version of such guidelines must be maintained by Grantee in the Baseline Documentation and made available to Grantor upon request. The archaeologically, culturally, or historically significant features may

not be altered or removed without Grantee's prior written approval, which approval will not be given except where the proposed activity is accomplished in accordance with the guidelines provided in The Secretary of The Department of the Interior's Standards for the Treatment of Historic Properties.

SECTION II - PROTECTION OF THE UNITED STATES' INTERESTS

1. United States Right of Enforcement. Pursuant to 16 U.S.C. Section 3865 et seq., the United States is granted the right of enforcement that it may exercise only if the terms of the ALE are not enforced by the holder of the ALE. The Secretary of the United States Department of Agriculture (the Secretary) or his or her assigns, on behalf of the United States, may exercise this right of enforcement under any authority available under State or Federal law if the Grantee, or its successors or assigns, fails to enforce any of the terms of this ALE, as determined in the sole discretion of the Secretary.

In the event the United States exercises this right of enforcement, it is entitled to recover any and all administrative and legal costs associated with any enforcement or remedial action related to the enforcement of this Easement from the Grantor, including, but not limited to, attorney's fees and expenses related to Grantor's violations. In the event the United States exercises this right of enforcement, it is entitled to recover any and all administrative and legal costs associated with any enforcement of this Easement from the Grantee, including, but not limited to, attorney's fees and expenses related to Grantee's violations or failure to enforce the easement against the Grantor.

The Grantee will annually monitor compliance and provide the United States with an annual monitoring report that documents that the Grantee and Grantor are in compliance with the ALE and ALE Plan. If the annual monitoring report is insufficient or is not provided annually, or if the United States has evidence of an unaddressed violation, as determined by the Secretary, the United States may exercise its right of inspection. For purposes of inspection and enforcement of the ALE, the ALE Plan, and the United States Cooperative Agreement with the Grantee, the United States will have reasonable access to the Protected Property with advance notice to Grantee and Grantor or Grantor's representative.

In the event of an emergency, the United States may enter the Protected Property to prevent, terminate, or mitigate a potential or unaddressed violation of these restrictions and will give notice to Grantee and Grantor or Grantor's representative at the earliest practicable time.

3. General Disclaimer. The United States, its employees, agents, and assigns disclaim and will not be held responsible for Grantee's or Grantor's negligent acts or omissions or Grantee's or Grantor's breach of any representation, warranty, covenant, or agreements contained in this ALE Deed, or violations of any Federal, State, or local laws, including all Environmental Laws including, without limitation, those that give rise to liabilities, claims, demands, losses, expenses, damages, fines, fees, penalties, suits, proceedings, actions, costs of actions, or sanctions asserted by or on behalf of any person or governmental authority, and other liabilities (whether legal or

equitable in nature and including, without limitation, court costs, and reasonable attorneys' fees and attorneys' fees on appeal) to which the United States may be subject or incur relating to the Protected Property.

4. Environmental Warranty. Grantor warrants that it is in compliance with, and will remain in compliance with, all applicable Environmental Laws. Grantor warrants that there are no notices by any governmental authority of any violation or alleged violation of, noncompliance or alleged noncompliance with, or any liability under, any Environmental Law relating to the operations or conditions of the Protected Property. Grantor further warrants that it has no actual knowledge of a release or threatened release of Hazardous Materials, as such substances and wastes are defined by applicable Federal and State law.

Moreover, Grantor hereby promises to hold harmless and indemnify Grantee and the United States against all litigation, claims, demands, penalties and damages, including reasonable attorneys' fees, arising from or connected with the release or threatened release of any hazardous materials on, at, beneath or from the Protected Property, or arising from or connected with a violation of any Environmental Laws by Grantor or any other prior owner of the Protected Property. Grantor's indemnification obligation will not be affected by any authorizations provided by Grantee or the United States to Grantor with respect to the Protected Property or any restoration activities carried out by Grantee at the Protected Property; provided, however, that Grantee will be responsible for any Hazardous Materials contributed after this date to the Protected Property by Grantee.

"Environmental Law" or "Environmental Laws" means any and all Federal, State, local or municipal laws, rules, orders, regulations, statutes, ordinances, codes, guidelines, policies, or requirements of any governmental authority regulating or imposing standards of liability or standards of conduct (including common law) concerning air, water, solid waste, hazardous materials, worker and community right-to-know, hazard communication, noise, radioactive material, resource protection, subdivision, inland wetlands and watercourses, health protection, and similar environmental health, safety, building, and land use as may now or at any time hereafter be in effect.

"Hazardous Materials" means any petroleum, petroleum products, fuel oil, waste oils, explosives, reactive materials, ignitable materials, corrosive materials, hazardous chemicals, hazardous wastes, hazardous substances, extremely hazardous substances, toxic substances, toxic chemicals, radioactive materials, infectious materials, and any other element, compound, mixture, solution, or substance that may pose a present or potential hazard to human health or the environment.

5. Extinguishment, Termination, and Condemnation. The interests and rights under this Agricultural Land Easement may only be extinguished or terminated with written approval of the Grantee and the United States. Due to the Federal interest in this ALE, the United States must review and approve any proposed extinguishment, termination, or condemnation action that may affect its Federal interest in the Protected Property.

With respect to a proposed extinguishment, termination, or condemnation action, the Grantee and the United States stipulate that the fair market value of the ALE is _____ percent, hereinafter the "Proportionate Share," of the fair market value of the land unencumbered by this ALE. The Proportionate Share will remain constant over time.

If this ALE is extinguished, terminated, or condemned, in whole or in part, then the Grantor must reimburse Grantee and the United States an amount equal to the Proportionate Share of the fair market value of the land unencumbered by this ALE. The fair market value will be determined at the time all or a part of this ALE is terminated, extinguished, or condemned by an appraisal that meets the Uniform Standards of Professional Appraisal Practice (USPAP) or Uniform Acquisition Standards or Federal Land Acquisition (UASFLA). The appraisal must be completed by a certified general appraiser and be approved by the Grantee and the United States.

The allocation of the Proportionate Share between the Grantee and the United States will be as follows: (a) to the Grantee or its designee, _____ percent of the Proportionate Share; and (b) to the United States _____ percent of the Proportionate Share. Until such time as the Grantee and the United States receive the Proportionate Share from the Grantor or the Grantor's successor or assign, the Grantee and the United States each have a lien against the Protected Property for the amount of the Proportionate Share due each of them. If proceeds from termination, extinguishment, or condemnation are paid directly to Grantee, the Grantee must reimburse the United States for the amount of the Proportionate Share due to the United States.

6. Amendment. This ALE may be amended only if, in the sole and exclusive judgment of the Grantee and United States, by and through the Chief of NRCS, such amendment is consistent with the purposes of this ALE and complies with all applicable laws and regulations. The Grantee must provide timely written notice to the Chief of NRCS of any proposed amendments. Prior to the signing and recordation of the amended ALE, such amendments must be mutually agreed upon by the Grantee, Grantor, and United States, by and through the Chief of NRCS. Any purported amendment that is recorded without the prior approval of the United States is null and void.
