Field Office and TSP Certification Plan Review Checklist

**Conservation Activity Plan – Forest Management Plan
Practice Activity Code (106)**

(Refer to National Bulletin 450-13-3 for a complete listing of CAP Criteria)

Purpose: The purpose of the checklist is to provide guidance for elements that need to be addressed or included in the Conservation Activity Plan (CAP). The checklists are recommended for use by NRCS staff and Technical Service Providers, but are not required. NRCS staff can use the checklist for administrative review of the sample plans submitted as part of the certification process as well as all other plans submitted after a TSP is certified. TSPs can use the checklist for a general guidance of elements to include in the plan, but it is still the TSP's responsibility to follow the CAP Plan Development Criteria for specific elements and the detail of each element to be included.

Instructions: The checklist should be completed and submitted with the sample plan or the hardcopy of the client's plan as described below:

- **Prospective TSP's** should submit the completed checklist and sample plan by mail or email (complete plans should be sent as a single electronic file for example pdf, word or scanned file) to the appropriate State TSP Coordinator for technical review to become a certified TSP. A list of State TSP Coordinators can be found at: <https://techreg.sc.egov.usda.gov/RptStateContact4Admin.aspx>.
- **Certified TSP's** should submit the completed checklist, hardcopy and electronic copy of the client's plan to the local NRCS Field Office or appropriate State TSP Coordinator for administrative review.
- **NRCS Staff** should complete the checklist for administrative review and place the completed checklist in the client's file. Administrative review involves a review of the content of the plan to ensure all required elements are present, but does not involve technical review for correctness. (Please Note: If technical review is needed, the completed checklist and client plan should be forwarded to the appropriate State Office staff or NHQ for technical review.)

Please Note: Should a State not have the technical specialist to conduct the technical review, requests can be submitted (by the State Office) to NHQ for review. For NHQ review please submit the complete plan and checklist by mail or email to the TSP Team. See below for address information.

Forest Management Plan

State/County:	Date Plan Submitted:
Producer/Owner:	Technical Service Provider:
<p>A Forest Management Plan (FMP) is a site specific plan developed for a client, which addresses one or more resource concerns on land where forestry-related conservation activities or practices will be planned and applied.</p> <p>Technical Guidance, Criteria, and Content for the FMP is found at the URL: eDirectives http://directives.sc.egov.usda.gov/. Navigate to: Manuals Title 190 Ecological Sciences; National Forestry Manual; Part 536 – Conservation Planning, Subpart B – Forestry Management Plan Criteria.</p>	
Minimum components of a Forest Management Plan (FMP) shall include:	
1.	Background and site information: This element provides a brief description of:
<input type="checkbox"/>	<ul style="list-style-type: none"> a. Landowner information-name, address, operation, size; b. Location and plan map of parcel; c. Documentation of existing practices; d. Past harvest history; e. Identification of resource concerns.
2.	Client Objectives, which may include these considerations and others:
<input type="checkbox"/>	<ul style="list-style-type: none"> a. Expected income; b. Forest stand improvement; c. Wildlife habitat/riparian areas; d. Recreation; e. Agroforestry; f. Pollinator habitat and protection.
3.	Existing Conditions:
<input type="checkbox"/>	<p>Identify resource concerns based on an inventory to assess these concerns and opportunity for treatment. The inventory will typically include:</p> <ul style="list-style-type: none"> a. Description of the inventory process (generally accepted forest inventory methods); b. Forest management unit and stand boundaries; c. Site index, basal area, species and size class; d. Potential woodland products, soil conditions, slopes, topography and aspect; e. Natural and cultural features; f. Roads and wildfire risk (surface and crown fires); g. Risk of insect and disease infestation; h. Fish and wildlife species and habitat elements; i. Noxious and invasive species; j. Water quality and other important features as applicable.
4.	Desired Future Conditions:
<input type="checkbox"/>	<p>Goals such as stocking, trees per acre, basal area, species composition, wildlife, pollinator habitat and protection, recreation, etc. for stands where practices/activities are to be implemented to meet future goals.</p>

5. Forest Management Plan Documentation:																																															
<input type="checkbox"/>	1. Cover page with signature blocks.																																														
<input type="checkbox"/>	2. Forest management plan map including boundaries, fields/stands, scale, north arrow, stand boundaries and appropriate map symbols.																																														
<input type="checkbox"/>	3. Soils map including legend, interpretations, and suitability index for forest activities. The Web Soil Survey can provide the needed information: http://websoilsurvey.nrcs.usda.gov/app/HomePage.htm																																														
<input type="checkbox"/>	4. A wetland delineation map and associated wetland compliance documentation (Food Security Act of 1985), if applicable.																																														
<input type="checkbox"/>	5. Resource Assessment Results (wind and water erosion, water availability, soil fertility, etc...																																														
<input type="checkbox"/>	<p>6. Conservation plan (record of decisions) (<i>MS Word Document or the national common forest management plan template</i>) to include:</p> <ul style="list-style-type: none"> a. Planned practice (s) with NRCS practice name(s) and codes; b. Amounts to be applied in NRCS practice units (no.), (ft), (ac); c. Schedule for implementation; d. Primary NRCS forestry and agroforestry practices-When any of the following practices are used in this plan, the site specific specifications shall be developed in the template, NRCS approved Jobsheet or separate plan. <table border="1" data-bbox="423 953 1170 1562"> <thead> <tr> <th>Code</th> <th>Practice Name</th> </tr> </thead> <tbody> <tr><td>311</td><td>Alley Cropping</td></tr> <tr><td>379</td><td>Multi-Story Cropping</td></tr> <tr><td>380</td><td>Windbreak/Shelterbelt Establishment</td></tr> <tr><td>381</td><td>Silvopasture Establishment</td></tr> <tr><td>383</td><td>Fuel Break</td></tr> <tr><td>384</td><td>Woody Residue Treatment</td></tr> <tr><td>394</td><td>Firebreak</td></tr> <tr><td>472</td><td>Access Control</td></tr> <tr><td>490</td><td>Tree/Shrub Site Preparation</td></tr> <tr><td>612</td><td>Tree/Shrub Establishment</td></tr> <tr><td>650</td><td>Windbreak/Shelterbelt Renovation</td></tr> <tr><td>654</td><td>Road/Trail/Landing Closure and Treatment</td></tr> <tr><td>655</td><td>Forest Trails and Landings</td></tr> <tr><td>660</td><td>Tree/Shrub Pruning</td></tr> <tr><td>666</td><td>Forest Stand Improvement</td></tr> </tbody> </table> <ul style="list-style-type: none"> e. Additional practices may be needed to meet all the landowner's objectives. For the following practices the plan must include the planned amount, fields where the practice is to be applied and the planned year of application. <table border="1" data-bbox="407 1728 1308 1990"> <thead> <tr> <th>Code</th> <th>Practice name</th> </tr> </thead> <tbody> <tr><td>314</td><td>Brush Management</td></tr> <tr><td>315</td><td>Herbaceous Weed Control</td></tr> <tr><td>327</td><td>Conservation Cover</td></tr> <tr><td>338</td><td>Prescribed Burning</td></tr> <tr><td>342</td><td>Critical Area Planting</td></tr> <tr><td>382</td><td>Fence</td></tr> </tbody> </table>	Code	Practice Name	311	Alley Cropping	379	Multi-Story Cropping	380	Windbreak/Shelterbelt Establishment	381	Silvopasture Establishment	383	Fuel Break	384	Woody Residue Treatment	394	Firebreak	472	Access Control	490	Tree/Shrub Site Preparation	612	Tree/Shrub Establishment	650	Windbreak/Shelterbelt Renovation	654	Road/Trail/Landing Closure and Treatment	655	Forest Trails and Landings	660	Tree/Shrub Pruning	666	Forest Stand Improvement	Code	Practice name	314	Brush Management	315	Herbaceous Weed Control	327	Conservation Cover	338	Prescribed Burning	342	Critical Area Planting	382	Fence
Code	Practice Name																																														
311	Alley Cropping																																														
379	Multi-Story Cropping																																														
380	Windbreak/Shelterbelt Establishment																																														
381	Silvopasture Establishment																																														
383	Fuel Break																																														
384	Woody Residue Treatment																																														
394	Firebreak																																														
472	Access Control																																														
490	Tree/Shrub Site Preparation																																														
612	Tree/Shrub Establishment																																														
650	Windbreak/Shelterbelt Renovation																																														
654	Road/Trail/Landing Closure and Treatment																																														
655	Forest Trails and Landings																																														
660	Tree/Shrub Pruning																																														
666	Forest Stand Improvement																																														
Code	Practice name																																														
314	Brush Management																																														
315	Herbaceous Weed Control																																														
327	Conservation Cover																																														
338	Prescribed Burning																																														
342	Critical Area Planting																																														
382	Fence																																														

		395	Stream Habitat Improvement and Management
		560	Access Road
		578	Stream Crossing
		580	Streambank and Shoreline Protection
		595	Integrated Pest Management
		643	Restoration and Management of Declining Habitats
		644	Wetland Wildlife Habitat Management
		645	Upland Wildlife Habitat Management
		647	Early Successional Habitat Development/Management
	<p>NOTICE: Practices beyond the basic forestry/agroforestry practices may be included in the plan, but the design and implementation of these will be conducted by an appropriately certified TSP for those practices.</p>		
<input type="checkbox"/>	7. For management practices include the planned practices and site specific specifications on how, when and extent (acres/number) each practice will be applied.		
<input type="checkbox"/>	8. For engineering/structural practices include when and extent each of the planned practices will be applied, also include location on the Conservation Plan Map.		
6.	Deliverables:		
<input type="checkbox"/>	1. Complete hardcopy for the client; 2. Complete hardcopy and electronic copy of the plan for NRCS: a. Digital Conservation Plan Map with fields, features and structural practices located; b. Digital Soils Map.		
<input type="checkbox"/>	Optional -Use of the Plan Template developed for this CAP is optional, but recommended. Managing Your Woodlands Natl ATFS FS NRCS Joint Mgt Plan Template_elec Sign_21Feb11.pdf or Managing Your Woodlands Natl ATFS FS NRCS Joint Mgt Plan Template_21Feb11.doc). Both templates and a User's Guide are available on the TSP website http://www.nrcs.usda.gov/wps/portal/nrcs/detailfull/national/programs/technical/tsp/?&cid=stelprdb1046968 .		

Yes	No	Checklist Approval
		I have administratively reviewed this Forest Management Plan and it meets all the FY13 Plan Development Criteria for Conservation Activity Plan 106.
