

**Addendum to Soil Conservationist Technician, GS-0458-06/07  
Performance Plan**

**Element 2. Mission Results (Critical)**

USDA Strategic Goal 5, Objective 5.2: Improve Management of Private Lands

NRCS Strategic Goal 1. Enhance the productive capacity of the natural resource base to enable a strong agricultural and natural resource sector.

Will achieve X # of acres covered by conservation plans for the State (CTA/crop land). (links to measure #1 of the National Performance Report).

Will achieve X # of acres covered by conservation plans for the State (CTA/grazing land). (links to measure #2 of the National Performance Report).

**OR**

Will achieve \*X # of CTA acres covered by conservation plans for part of the \*\*Area  
Will achieve X # of crop land acres covered by conservation plans for part of the Area (links to measure #1 of the National Performance Report).

Will achieve X # of CTA acres covered by conservation plans for part the Area  
Will achieve X # of grazing land acres covered by conservation plans for part the Area (Links to measure #2 of the National Performance Report).

Will achieve X # of CTA acres reduced of cropland soils damage due to erosion for part the Area. Will achieve X # of CRP acres reduced of cropland soils damage due to erosion for part the Area (Links to measure #3 of the National Performance Report).

Will achieve X # of CTA acres of grazing land where conservation applied to protect the resource base for part the Area.

Will achieve X # of EQIP acres of grazing land where conservation applied to protect the resource base for part the Area (Links to measure #4 of the National Performance Report).

Will achieve X # of AMA acres reduced of cropland soils damage due to erosion for part the Area

Will achieve X # of EQIP acres reduced of cropland soils damage due to erosion for part the Area (Links to measure #19 of the National Performance Report).

**NRCS Strategic Goal 2. Reduce unintended adverse effects of natural resource development and use to ensure a high quality environment.**

Will achieve X # of written comprehensive CTA soil nutrient management plans for part the Area

\*Represents a portion of the number of acres for which the incumbent and Virginia has responsibility (as contained in the NRCS National Performance Report).

\*\*Represents the scope of the incumbent's responsibility.

Will achieve X # of written comprehensive EQIP soil nutrient management plans for part the Area (Links to measure #5 of the National Performance Report).

Will achieve X # of CTA comprehensive nutrient management plans applied for part the Area.

Will achieve X # of EQIP comprehensive nutrient management plans applied for part the Area (Links to measure #6 of the National Performance Report).

Will achieve X # of wetlands acres restored for part the Area (Links to measure #7 of the National Performance Report).

Will achieve X # of CTA watershed or area-wide conservation plans developed for water or air-quality for part the Area.

Will achieve X # of W/S Surveys & Planning watershed or area-wide conservation plans developed for water or air-quality for part the Area.

Will achieve X # of RC&D W/S Surveys & Planning watershed or area-wide conservation plans developed for water or air-quality for part the Area (Links to measure #8 of the National Performance Report).

Will achieve X # of CTA acres of agricultural lands treated for which wildlife habitat is the primary or secondary resource concern for part the Area..

Will achieve X # of CRP acres of agricultural lands treated for which wildlife habitat is the primary or secondary resource concern for part the Area (Links to measure #9 of the National Performance Report).

Will achieve X # of GRP cumulative acres of farmland and grazing lands protected by conservation easements for part the Area.

Will achieve X # of FRPP cumulative acres of farmland and grazing lands protected by conservation easements for part the Area (Links to measure #15 of the National Performance Report).

Will achieve X # of FRPP cumulative acres of prime, unique or important farmland protected by conservation easements from conversions to non-agricultural uses for part the Area (Links to measure #16 of the National Performance Report).

Will achieve X # of WRP acres of wetlands protected by 30 year permanent easements for part the Area (Links to measure #18 of the National Performance Report).

Will achieve X # of acres of agricultural land managed for the protection and enhancement of habitat for species with declining populations for part the Area (Links to measure #21 of the National Performance Report).

Will achieve X # of long-term WF-8 contracts completed during the fiscal year for the purpose of water quality improvement for part the Area

Will achieve X # of long-term WF-03 contracts completed during the fiscal year for the purpose of water quality improvement for part the Area (Links to measure #23 of the National Performance Report).

**NRCS Strategic Goal 3. Reduce risks from flooding and drought to protect individual and community health and safety.**

Will achieve X # of WF-08 flood prevention or mitigation measures installed, including structures, easements, and other measures for part the Area.

Will achieve X # of WF-03 flood prevention or mitigation measures installed, including structures, easements, and other measures for part the Area (Links to measure #33 of the National Performance Report).
