

- Maine State Supplement -  
2012-1 Ranking Period  
Conservation Stewardship  
Program (CSP) Job Sheet

**WQL01 Maine State Supplement 2012-1**  
**Biological Suppression and Other Non-Chemical Techniques to Manage  
Brush, Herbaceous Weeds and Invasive Species**

Targeted Grazing is the method of choice for biological control, as NRCS Pest Management Policy allows only grazing as a biological control.
