

# Conservation Security Program (CSP)

## Workshops

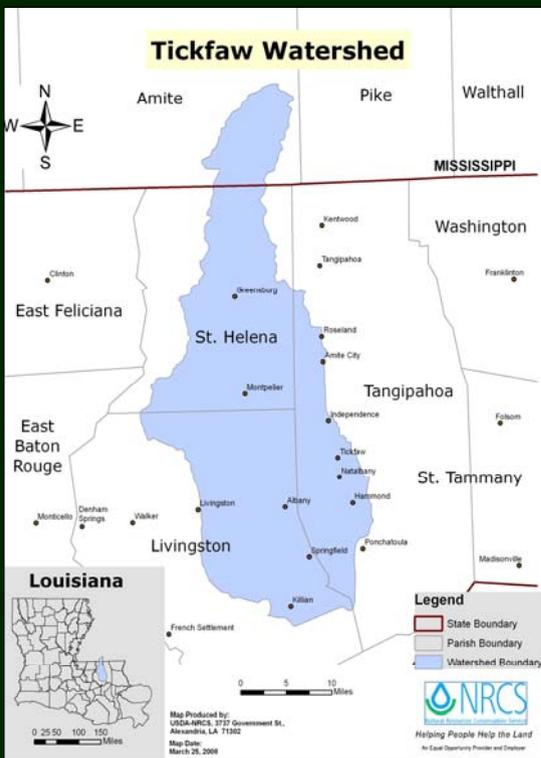

The Natural Resources Conservation Service (NRCS) has selected in Louisiana the Tickfaw Watershed for the Conservation Security Program (CSP).

**Sign-up for the program will begin  
April 18 and close on May 16.**

CSP offers rewards to those who have been good stewards of the soil and water resources on their working agricultural land. CSP provides financial and technical assistance to landowners to further enhance the conservation and improvement of soil, water, air, energy, plant and animal life, and other conservation purposes on Tribal and private working lands. Working lands include cropland, grassland, improved pasture, as well as forested land that is an incidental part of an agriculture operation.

Three CSP Workshops for landowners, operators and residents within this watershed will be conducted by local NRCS and Soil and Water Conservation District staff. During the workshops, attendees will be provided with details on the program, and CSP self assessment process and sign-up information.

- **April 14<sup>th</sup> at 10 a.m. in the St. Helena Police Jury Room in Greensburg.**
- **April 14<sup>th</sup> at 5:00 p.m. in the Livingston Parish Council meeting room at the Livingston Parish Court in Livingston.**
- **The April 15, 2008 CSP at 10:00 a.m. in the Albany-Springfield Library meeting room, 26941 LA Highway 43 South, between Albany and Springfield.**

**For more information on CSP, the CSP Workshops (locations and/ or times), or the NRCS, please contact your local NRCS Field Offices in Tangipahoa and St. Helena parishes at 985-748-8751 Ext. 3, or in Livingston Parish at 225-664-1430 Ext. 3.**
