

**TICKFAW WATERSHED – 08070203
CENSUS DATA**

The following information reflects the **parish estimates** for those parishes that are partially or wholly encompassed by the proposed CSP watersheds. This information was compiled from the 2002 Census of Agriculture:

Tickfaw Watershed - 08070203

Selected Groups	Number of Farms	Number of Operators	Land in Farm (Ac)
White	1800	2500	228,500
Black/African American	90	100	5,800
American Indian/Alaska Native	3	3	N/A
Native Hawaiian/Other Pacific Islander	--	--	--
Asian	3	6	60
Hispanic	50	50	4,100
Women	700	800	69,700

In addition to the above information, it is estimated that approximately 1400 of the above operators could fall into a limited resources/small scale farmer's category, which means that they had Gross Farm Sales of Less Than 102,400 in each of the previous two years and approximately 400 are estimated to have been on the present farm less than ten years. This makes them potentially eligible to be classified as Beginning Farmers or Ranchers.
