

Part 600.2 – Step 4 – Analyze Resource Data

TN600.24 3.

TN600.24 Step 4 Activities – Conservation Plan.

3. The use of TN-CPA-25, Environmental Effects for Conservation Plans and Areawide Conservation Plans, is required in Tennessee to document the Soil, Water, Air, Plant, Animal, and Human concerns for conservation planning and to fulfill the environmental evaluation process as required by the National Environmental Policy Act (NEPA). An electronic version of this form is available in the FIELD Program (Fieldb.xls sheet TN-CPA-25). Instructions for the form are contained in the electronic version. The NRCS case file must contain the completed TN-CPA-25.
