
Chapter 1

General

Contents

NJ650.1401

-
- a) Introduction**
 - b) Types of drainage systems**
 - c) Investigations and planning**

Chapter 2

Surface Drainage

Contents	NJ650.1402	a) General
		b) Types of channels
		c) Types of open drain systems
		d) Land forming
		e) Drainage channel design
		f) Channel vegetation and maintenance

Tables	Table 2-1	Allowable velocity for drainage channels
	Table 2-2	Values of Manning's n for Drainage ditch design

Figures	Figure 2-1	Random drains
	Figure 2-2	Parallel surface drains
	Figure 2-3	Reconstructing cross slope drain system
	Figure 2-4	Surface drainage bedding

Chapter 3

Subsurface Drainage

Contents	NJ650.1403	a) General
		b) Types of systems
		c) Subsurface drainage design
		d) Drain envelope
		e) Appurtenances
		f) Installation
		g) Safety
		h) Maintenance

Tables	Table 3-1	Drainage coefficients
	Table 3-2	Drainage coefficients for system with surface inlets
	Table 3-3	Maximum subsurface drain line velocity by soil texture
	Table 3-4	Values of Mannings' n for subsurface drains and conduits

Figures	Figure 3-1	Field drainage systems
	Figure 3-2	Subsurface drainage system
	Figure 3-3	Subsurface drain discharge from drainage coefficient
	Figure 3-4	Subsurface drain discharge for corrugated plastic pipe
	Figure 3-5	Curves to determine discharge, Q_r for subsurface drain
	Figure 3-6	Typical bedding or envelope installation
	Figure 3-7	Typical junction box and silt trap
	Figure 3-8	Blind surface inlet
	Figure 3-9	Vent or relief well
	Figure 3-10	Typical animal guards
	Figure 3-11	Drain crossings and outlets

Chapter 4

Interception Drainage

Contents	NJ650.1404	a) Ground water movement
		b) Location of interceptor
		c) Use of surface or subsurface drains
		d) Size of drains

Tables	Table 4-1	Interception drain inflow rates
---------------	------------------	---------------------------------

Figures	Figure 4-1	Ground water movement
	Figure 4-2	Typical interceptor installations
	Figure 4-3	Diversion system on moderate to steep slope
	Figure 4-4	Interceptor drain on bottom land

Chapter 5

Water Table Management

Contents	NJ650.1405	a) General
		b) Water table management

Figures	Figure 5-1	Water table management alternatives
	Figure 5-2	Water control structures
	Figure 5-3	Field layout of WTM system
	Figure 5-4	Subirrigation lateral spacing and water table position

Chapter 6

Pump Drainage

Contents	NJ650.1406	a) General
		b) Surface drainage pumping conditions
		c) Subsurface drainage pumping conditions
		d) Relationship of pumping plant to drainage system
		e) Economic justification of pumping plant
		f) Pumping from subsurface aquifers
		g) Basic information required for plant design
		h) Maintenance

Figures	Figure 6-1	Typical pumping plant
----------------	-------------------	------------------------------

Glossary

References

Appendix A

Drainage Runoff Curves

Appendix B

Drainage Recommendations

Appendix C

Drainage for Agricultural Structures

Contents **NJ650.14C**

- a) **Introduction**
- b) **Site selection**
- c) **Surface drainage**
- d) **Subsurface drainage**
- e) **Grading**
- f) **Roof runoff**
- g) **Dewatering**
- h) **Maintenance**

Figures

- Figure C-1** **Typical downspout-splash pad installation**
- Figure C-2** **Typical downspout-underground outlet installation**

Appendix D

Restoration of Drained Areas

Contents	NJ650.14D	a) Introduction
		b) Goals and objectives
		c) Site evaluation
		d) Drainage alteration measures
		e) Maintenance

Appendix E

Tools and Worksheets

This appendix is available to the user for supplementing the New Jersey Water Management Guide with useful tools, worksheets, design examples, and other information relating to water management.
