

PART MI544 – EQUIPMENT

MI544.05

MI544.05 NRCS-Michigan State Procedures

Care and maintenance of sensitive NRCS-Michigan equipment shall follow the procedures outlined in NEM 544.00 through NEM 544.04 and shall be in accordance with the manufacturer-provided operator's manual.

Equipment such as levels, total stations, clinometers, etc. should be checked for accuracy at least once during the period of the year when they are being used. Records of these checks and calibrations should be kept on a card stored in the carrying case of the instrument. All NRCS-Michigan personnel using sensitive equipment shall be familiar with the procedures for checking of the equipment they use. Area engineers shall review equipment care and maintenance in each field office at least annually.
