

PART 542 - SPECIFICATIONS

SUBPART B - ENGINEERING SERVICES SPECIFICATIONS

IL542.10(b)

§IL542.10 Numbering system.

(a) The following numbering system is established and is to be followed when engineering services specifications are developed for the series listed:

IL 740 - Planning

IL 741 - 749 Reserved

IL 750 - Data Gathering and Processing

IL 751 - Aerial Photography, Surveys, Topographic Maps and Drafting

IL 752 - 759 Reserved

IL 760 - Geotechnical Investigations

IL 761 - Earth Dam Geologic Investigation

IL 762 - 768 Reserved

IL 769 - Soil Mechanics

IL 770 - Design

IL 771 - Earth Dam and Appurtenances

IL 772 - 779 Reserved

IL 780 - Construction

IL 781 - Construction Engineering and Inspection Services

IL 782 - 789 Reserved

IL 790 - Landscaping

IL 791 - Landscape Planting Plan

IL 792 - 799 Reserved

IL 800 - Operation and Maintenance

IL 801 - 809 Reserved (Example might be Emergency Action Plan Development)

(b) Each specification must be dated to keep current on revisions, additions, or corrections. Each specification must attach a section to add details specific to the site in question, thereby eliminating the need to change the general specification. The reserved numbers for each series (Design, Construction, etc.) are to be used in sequence. A 3-ring binder labeled "Engineering Services Specifications" will contain an example of each existing specification. The binder file will be subdivided by each specification series, IL 740 - Planning, IL 750 - Data Gathering and Processing, etc.

IL542-4(1)
