A copy of the Energy Audit for this site, including a plan view showing the location of the measures in relationship to other structures, will be retained by NRCS as supporting documentation for the Energy Improvements. See page 2 for details.

USDA Program Participant Certification:

To the best of my knowledge these records accurately reflect the actual actions implemented in accordance with the recommendations in the energy audit.

USDA Program Participant Signature *Date*

NRCS Acceptance:

Completed practice meets NRCS standards and specifications.

NRCS Representative Signature *Date*

Farmstead Energy Improvement (374) Implementation Plan and Record

Supporting Documentation

- Plan view showing location of energy saving components.
- Detail drawings or schematics of the measures and appurtenances such as piping and wiring, mountings, foundations, etc.
- Specification sheets or shop drawings for the following (list items):

General Installation Notes

- All work must conform to all applicable codes and manufacturer or supplier requirements.
- Call JULIE at 1-800-892-0123 at least two days prior to excavation where site excavation is needed.

Evidence of Proper Installation

- Code Official approval of installed items (attach copy).
- If Code Official approval is not required, obtain a signature on the statement below. For items installed by a certified professional, obtain the installer's signature. For items installed by the landowner, obtain the landowner's signature.

To the best of my knowledge, the energy saving items have been installed in compliance with applicable codes and manufacturer or supplier requirements.

Landowner or Installer Signature
