

## 502.10 Agreements

IL502.10(a)

### **IL502.10 Sponsor Responsibilities**

For EWP contracts in which in-kind work is to be completed by the Sponsor through a formal contract, the Government Representative will confirm the completion of the in-kind work. If the Sponsor has not completed the in-kind work within six months of the completion of the rest of the project, the District Conservationist shall send a letter to the Sponsor with copy to the Contracting Officer, outlining the in-kind work to be completed and the penalties to be incurred if the work is not completed.

For EWP contracts in which the Sponsor passes the responsibility for in-kind work to the landowner(s), the Sponsor shall provide NRCS with a copy of a signed, written agreement between the Sponsor and the landowner(s) to document the responsibility for the in-kind work and the required completion date. If the landowner(s) do not fulfill their obligation to the Sponsor for the in-kind work, the Sponsor remains responsible for the in-kind work as outlined in the EWP contract with NRCS.
