

March 31, 1993

NATIONAL ENGINEERING MANUAL (SECOND EDITION)  
210-V, Amendment IL-16

SUBJECT: ENG - Engineering activities affecting utilities.

**Purpose:** To improve and emphasize safety around utilities.

**Effective Date:** This supplement is effective upon receipt.

Our jobs often bring us into contact with utilities in the field. Knowledge of their existence and safety when around utilities is always important. There have been several additions to the section on "Engineering Activities Affecting Utilities". Please review this material and note the changes. Our ability to identify utilities and safely work with utility companies is critical to our job and our safety.

**Filing Instructions:** Remove pages IL503-2(1) and IL503-2(2) dated October 1980. File this amendment after page 503-2 dated August 1983.
