## RANDY JULANDER'S COOL JOB FEATURED ON KIDS WEBSITE

This week a profile of Randy Julander, NRCS Snow Survey Supervisor, was highlighted in a feature called "Cool Jobs", which is showcased on Southern Methodist University's (SMU) Kids Ahead and STEM Works websites. This feature explores and details a variety of STEM (Science, Technology, Math and Engineering) professions as

part of SMU's Caruth Institute for Engineering Education's larger goal of inspiring our nation's youth to pursue the study of STEM subjects. The feature depicts Randy's profession through his personal narrative. Through this narrative, he gives a behind the scenes peek into the responsibilities of a Snow Scientist, the processes involved with breaking into the field, the biggest challenges he faced along his journey, and the joys and satisfaction of being in his innovative field.

The career feature, plus his video segment from the Utah NRCS Career video, can be seen on two websites at: [http://kidsahead.com/subjects/5-extreme-weather/cool\\_jobs/127](http://kidsahead.com/subjects/5-extreme-weather/cool_jobs/127); and [http://stem-works.com/subjects/5-extreme-weather/cool\\_jobs/127](http://stem-works.com/subjects/5-extreme-weather/cool_jobs/127).
