NATHANIEL TODEA IS NEW NRCS HYDRAULIC ENGINEER

Nathaniel Todea began work January 8 as Hydraulic Engineer in the State NRCS Office. He will work with other engineers on statewide projects, including watershed rehab and other hydrologic and hydraulic analysis. He has two degrees from the opposite ends of the spectrum, a B.A. in Anthropology from Fort Lewis College, Durango, CO and an M.S. in Civil Engineering with concentration in Water Resources and Hydraulic Engineering from the University of New Mexico.

He moved from the State Office in Albuquerque, NM, where he was also a hydraulic engineer and had collateral duties as the American Indian Program Manager. He started his career with NRCS in the student Career Employment Program. His background includes owning a Geographic Information Technology business jointly with his wife, and serving

as an archaeologist for the Navajo Nation. He looks forward to visiting different parts of Utah's unique countryside. He is joined by his wife, Courtney, and their 18 month daughter, Emme Elizabeth.

He can be reached in the State Office at (801) 524-4573.
