

# unlock the SECRETS IN THE SOIL

## South Dakota Soil Health Teams

**Soil Health Teams:** four to five teams geographically placed across the state.

**Team membership:** partnering organizations or individuals.

**Why do we need your involvement?**

- Provide grassroots leadership and guidance on soil health issues in local communities.
- Provide and/or receive training on - educational materials, soil quality tool kit, and/or soil health models.
- Schedule training or events for other soil specialists - (grazing management, salinity, cropping systems, etc.).
- Local insight of accomplishments - possibly with a tillage and cover crop inventory (county based).
