

# CP38E (Establishment of Permanent Native Grass, Permanent Wildlife Habitat Corridors-noneasement, Permanent Wildlife Habitat-noneasement) CRP Mid Contract Management

Name: \_\_\_\_\_

See attached aerial photo for areas to be treated.

Field(s): \_\_\_\_\_

Tract: \_\_\_\_\_

CP 38E (Establishment of Permanent Native Grass, Permanent Wildlife Habitat Corridors-noneasement, Permanent Wildlife Habitat-noneasement) – For 10-year contracts MCM will be applied in years 4, 5, and 6 of the contract. For contracts over 12 years in length, apply MCM in years 5, 7, and 9 of the contract. **(choose one)** Apply to the vegetative cover but not to areas planted to trees or shrubs unless required by District Forester or NRCS.

**\* See following special interseeding information.**

- According to NRCS FOTG (327) Conservation Coverstandard, interseeding requires that existing vegetation be weakened prior to interseeding. For CRP, the stand may be weakened by disking, prescribed fire or chemical application prior to the interseeding operation.
  - IF the stand was hayed or grazed, these activities also meet the criteria of weakening the stand prior to interseeding.
- Time periods for CRP interseeding of introduced forbs and legumes: August 2 to September 30 or March 1 to May 14.
- Time periods for CRP interseeding of native forbs and legumes: April 15 to May 14.

| MCM Options       | Field # | Acres |
|-------------------|---------|-------|
| Disk              |         |       |
| Disk & Interseed  |         |       |
| Spray             |         |       |
| Spray & Interseed |         |       |
| Burn              |         |       |
| Burn & Interseed  |         |       |
| Interseed Only*   |         |       |

Begin MCM in \_\_\_\_\_.
