

Some of you may have noted that national web-based training modules for cultural resources, environmental compliance, air quality, and others are no longer available on the AgLearn site. They have been removed for some compliance repairs but NEDC has recognized that NRCS employees, TSPs, and partners must still take the course. NEDC has developed a short term solution for us and sent access instructions. We will be informed when the training is again available in AgLearn.

For Cultural Resources Training: Here is the alternate solution that has been developed to allow the employees and TSPs who plan to take Mod 7&8 (classroom) to complete this prerequisite course.

Course Content

1. Select

http://www.nedc.nrcs.usda.gov/TrainingResources/courses_webbased.html

2. Select Cultural Resources to launch the course content.

Course Exam

1. Select

<http://NRCSLearn.sc.egov.usda.gov/q4/open.dll?session=2715147991157518>

2. In the dialog box:

Name: type their full name

Group: cultural

For other web-based training:

Select the proper course and continue.
