

# LANDOWNER OFFER and SIGNATURE FORM

## Easement Payment (Land Value) Determination\*

I have applied for:

- Wetlands Reserve Program (WRP)
- Emergency Watershed Protection Program-Floodplain Easement (EWP-FPE)
- Grasslands Reserve Program (GRP)

It is voluntary that the landowner makes an offer to the Natural Resources Conservation Service (NRCS).

- I agree to accept \$\_\_\_\_\_ per acre as the average land value payment for the above referenced easement program. This agreement is valid for 12 months from the date signed.
- I do not wish to volunteer an offer.

County

- \*NOTE:** The Food, Conservation, and Energy Act of 2008 (Farm Bill) requires that the USDA determine the easement compensation value as the lowest of:
1. the fair market value as determined by an appraisal or market analysis,
  2. the amount determined by a geographic area rate cap, or
  3. the amount voluntarily offered by the landowner.

**This form is used to document the landowner's offer. Completion of this form does not suggest or imply that this site will be selected for enrollment into any easement program, or that any actual monetary offer will be made by the USDA.**
