

ENVIRONMENTAL QUALITY INCENTIVES PROGRAM - EQIP
Control of Land – For Vegetative or Structural Practices **VA-EQIP**

Farm operators who receive EQIP contract payments for structural or vegetative practices are required to have control of land enrolled in the Environmental Quality Incentives Program (EQIP) for the length of the proposed contract. EQIP applicants who manage and farm land that they do not own or for which they do not have a written lease may use this form to substantiate the intentions of the land owner.

To the best of my knowledge I/we plan to continue to allow the identified land to be farmed by the listed operator(s) for the length of the proposed EQIP contract.
