Farm Location:		

National Priorities Addressed

Issue Questions	Responses
1. Will the treatment you intend to implement using EQIP result in considerable reductions of non-point source pollution, such as nutrients, sediment, pesticides, excess salinity in impaired watersheds, groundwater contamination or point source contamination from confined animal feeding operations?	Yes <input type="radio"/> or No <input type="radio"/>
2. Will the treatment you intend to implement using EQIP result in a considerable amount of ground or surface water conservation?	Yes <input type="radio"/> or No <input type="radio"/>
3. Will the treatment you intend to implement using EQIP result in a considerable reduction of emissions, such as particulate matter, nitrogen oxides (NOx), volatile organic compounds, and ozone precursors and depleters that contribute to air quality impairment violations of National Ambient Air Quality Standards?	Yes <input type="radio"/> or No <input type="radio"/>
4. Will the treatment you intend to implement using EQIP result in a considerable reduction in soil erosion and sedimentation from unacceptable levels on agricultural land?	Yes <input type="radio"/> or No <input type="radio"/>
5. Will the treatment you intend to implement using EQIP result in a considerable increase in the promotion of at-risk species habitat conservation?	Yes <input type="radio"/> or No <input type="radio"/>

State Issues Addressed

Issue Questions	Responses
1. Soil test results show a phosphorus level of Medium plus or less on all fields that will receive poultry litter	Yes <input type="radio"/> or No <input type="radio"/>
2. The eligible fields are covered by a current nutrient management plan which accounts for the nutrients contained in the poultry litter	Yes <input type="radio"/> or No <input type="radio"/>
3. Where poultry litter is applied on cropland erosion rates are at "T" or less	Yes <input type="radio"/> or No <input type="radio"/>
4. Where poultry litter is applied on pasture the pasture conditioning score is 35 or more	Yes <input type="radio"/> or No <input type="radio"/>
5. All water features where poultry litter is to be applied will be protected with filter strips and or riparian buffers	Yes <input type="radio"/> or No <input type="radio"/>
6. The area being considered for an EQIP contract is within an impaired watershed shown on the "Impaired Waters of Virginia" Toolkit GIS layer.	Yes <input type="radio"/> or No <input type="radio"/>
