

2" x 1/4" Flat Steel

## Expanded Metal Screen

### Notes:

- 1.) Two (2) screens required. The front screen will have 1/2" openings and the back screen 1/4"
- 2.) Weld steel and screen together based on box layout.  
Screen will sit flush on drain box floor and fit in notched side walls.
- 3.) Recommend adding one or two hooks at the top of the filter screen for equipment removal.
