

**NOTES:**

- Base seal shall be 8 inches X 3/16 inch (Min) "Expansion" water stop with four embedded lugs and an expansive center bulb ( $\geq 1/2$  inch wide and  $\leq 1-1/4$  inches tall). The center bulb must not be crack forming.
- The required spacing of liquid-tight expansion or contraction joints shall be shown on the drawings.
- Turn up the water stop at the edge of the slab to maintain liquid tightness. (See Section B-B)

Dowel Requirements			
Slab Depth, in.	Diameter, in.	Total Length (L), in.	Spacing, in.
5	5/8	12	12
6	3/4	14	12
7	7/8	14	12
8	1	14	12
9	1-1/8	16	12
