Approved Land Uses, Resource Concerns, and Conservation Practices to Support the Water Quantity and Drought Pilot

Approved Land Use

Crop, Grazed Range, Hay, Headquarters, Pasture

Approved Resource Concerns

Water Quantity
Inefficient Water Use on Irrigated Land
Inefficient Water Use on Non–irrigated Land
Reduced Storage of Water Bodies by Sedimentation Accumulation
Water Quality
Excessive Suspended Sediment and Turbidity in Surface Water
Excessive Nutrients and Organics in Surface Water
Domestic Animals
Inadequate Stock Water

Approved Conservation Practices

Core Practices—A conservation practice (CP) listed in the electronic Field Office Technical Guide (eFOTG) that is essential to address the natural resource concerns identified by the pilot.	**Code**
Structure Sediment Removal	758

Supporting Practices—A CP listed in the eFOTG that may be needed to facilitate the implementation of a core practice or, along with other approved practice, needed to address the natural resource concerns identified by the initiative.	**Code**
Cover Crop	340
Critical Area Planting	342
Fence	382
Heavy Use Area Protection	561
Mulching	484
Pipeline	516
Prescribed Grazing	528
Watering Facility	614
