KANSAS EQIP ELIGIBLE PRACTICE LIST**

Ranking Categories - Organic-Transition and Organic-Certified ^{1,2}

Practice Code	Practice Name	Reporting Units
<u>Structural and Vegetative Practices</u>		
313	Waste Storage Facility	No.
314	Brush Management	No.
316	Animal Mortality Facility	No.
317	Composting Facility ¹³	No.
322	Channel Bank Vegetation	Acre
332	Contour Buffer Strips	Acre
338	Prescribed Burning	Acre
340	Cover Crop ¹⁴	Acre
342	Critical Area Planting	Acre
350	Sediment Basin	No.
351	Well Decommissioning	No.
353	Monitoring Well	No.
356	Dike	Ft.
359	Waste Treatment Lagoon	No.
360	Closure of Waste Impoundments	No.
362	Diversion	Ft.
365	Anaerobic Digester - Ambient Temperature	No.
366	Anaerobic Digester - Controlled Temperature	No.
367	Waste Facility Cover	No.
378	Pond (\$6,000/no. payment-rate cap)	No.
380	Windbreak/Shelterbelt Establishment	Acre
382	Fence	Ft.
386	Field Border	Ft.
391	Riparian Forest Buffer	Acre
393	Filter Strip	Acre
394	Firebreak	Ft.
410	Grade Stabilization Structure	No.
412	Grassed Waterway	Acre
441	Irrigation System, Microirrigation ³	No. and Acre
462	Precision Land Forming	Acre
466	Land Smoothing	Acre
468	Lined Waterway or Outlet	Ft.
484	Mulching	Acre
490	Tree/Shrub Site Preparation	Acre
512	Pasture and Hay Planting	Acre
516	Pipeline	Ft.
521A	Pond Sealing and Lining - Flexible Membrane	No.
521B	Pond Sealing and Lining - Soil Dispersant	No.
521C	Pond Sealing and Lining - Bentonite Sealant	No.
521D	Pond Sealing and Lining - Clay Treatment	No.
533	Pumping Plant ⁴	No.
550	Range Planting	Acre
558	Roof Runoff Structure	No.
560	Access Road	Ft.
574	Spring Development	No.
575	Animal Trails and Walkways	Ft.
578	Stream Crossing	No.
580	Streambank and Shoreline Protection	Ft.

645	Upland Wildlife Habitat Management ^{8,11}	Acre
645	Upland Wildlife Habitat Management ^{8,12}	Acre

**FISCAL YEAR 2009
KANSAS EQIP ELIGIBLE PRACTICE LIST**

Ranking Categories - Organic-Transition and Organic-Certified ^{1,2}

1	A higher payment rate has been set for any Limited Resource Farmer or Rancher (LRF), Beginning Farmer or Rancher (BF) or Socially Disadvantaged Farmer or Rancher (SDF). LRF, BF, or SDF may apply under this ranking category or the category specific to their resource concern.
2	Those practices associated with a new livestock waste facility have a lower payment rate.
3	Practice eligible for use with tree and shrub plantings associated with 380, 391, 612, and 650.
4	Practice is eligible for a pump to be used for livestock waste transfer or a solar pump to be used for the purpose of pumping water from a water body, in order to remove livestock from the water body (e.g. pond or stream).
5	This practice will be installed for the entire crop rotation or contract length, whichever is longer; a minimum three crop type rotation will be installed.
6	When cropland is converted to permanent vegetation it must meet Natural Resources Conservation Service (NRCS) electronic Field Office Technical Guide (eFOTG) standards and specifications of 512, 550, or 645. Requires at least 30 percent deferment during the growing season to be eligible.
7	This is a one-time payment to encourage the participant to hire a technical service provider for completion of the Comprehensive Nutrient Management Plan (CNMP). This practice is not eligible for payment if the NRCS completes the CNMP.
8	Practice will be implemented a minimum of three years. Payment will be made upon annual implementation of the practice.
9	Payment for 328 is not eligible on the same acres where payment is being received for 329, 345, or 346.
10	Management payment to leave brood strips in wheat stubble. Strips must be a minimum of one acre and must not exceed ten percent of an individual field. Pivot corners and fields ≤ 1 acre are eligible in their entirety. No stubble manipulation (tillage, mowing, spraying, grazing, etc.) allowed following crop harvest until after March 31 of the following year.
11	Management payment to leave unharvested strips in hayland fields of warm season grasses or alfalfa. Harvest must start in the middle of the field and proceed outward or begin on one side and move across the field.
12	Management payment to burn all acres in the treatment unit only one out of three years. The payment is eligible from a north south line from Washington County to Cowley County and all counties east thereof. Each acre in the treatment unit must be burned but shall only be burned once in three years. Burning shall not occur between May 1 and July 31. Payment will be made on actual acres burned. Each acre will be eligible for payment only once during the contract period.
13	Practice must be part of a Nutrient Management Plan that is developed prior to payment for this practice. For imported waste, the payment is limited to the storage needed for the contracted waste.
14	"Core 6" organic practice.
