

# Volunteers Needed 38<sup>th</sup> Annual Butterfly Count North American Butterfly Association

Thursday, July 12, 2012

Manhattan Plant Materials Center  
9:00 a.m.

Register by Monday, July 9, or for more  
information,  
please call 785-539-8761

Dress appropriately and bring a sack lunch, water, binoculars, field guides, and camera (if you have them). Volunteers around North America select a count area 15 miles in diameter and conduct a one-day census of all butterflies observed within that circle. The count program is intended to promote interest in butterflies and provide results useful for scientific monitoring of this beautiful and fascinating group of insects. While knowledge of butterflies is a plus, it is not necessary.

Manhattan Plant Materials Center (PMC)  
3800 South 20<sup>th</sup> Street  
Manhattan, KS 66502
