

Ranking Category–SEDIMENTATION ABOVE FEDERAL RESERVOIRS

Primary Resource Concerns–

- **Water Quality–Excessive Suspended Sediment and Turbidity in Surface Water**
- **Soil Erosion–Streambank**

Secondary Resource Concern–

- **Fish and Wildlife–Threatened and Endangered Species, Declining Species, Species of Concern (Only species identified for this ranking category on the Statewide At-Risk Species Listing are eligible for this resource concern.) Reference:**

<http://www.ks.nrcs.usda.gov/programs/eqip/2012/criteria>)

Eligible Land Uses–

- **Crop, Forest, Grazed Range, Hay, Pasture**

Additional Requirements for this Category–

- **To be eligible under this ranking category, greater than 50 percent of the application acres are within a federal reservoir priority watershed serving water supply needs designated by the Kansas Water Office (KWO).**

State Issues–

1. Answer ONE of the following five questions related to the federal reservoir watershed. If none apply, leave the answers “NO”:
 - (a) Greater than or equal to 50 percent of the unit of concern is located within a KWO identified Priority 1 federal reservoir watershed. (750 points)
 - (b) Greater than or equal to 50 percent of the unit of concern is located within a KWO identified Priority 1 and 2 (must have a combination of these two watersheds) federal reservoir watershed. (600 points)
 - (c) Greater than or equal to 50 percent of the unit of concern is located within KWO identified Priority 2 federal reservoir watershed. (450 points)
 - (d) Greater than or equal to 50 percent of the unit of concern is located within a KWO identified Priority 1, 2, and 3 (must have a combination of at least two watersheds) federal reservoir watershed. (300 points)
 - (e) Greater than or equal to 50 percent of the unit of concern is located within KWO identified Priority 3 federal reservoir watershed. (150 points)
2. If applicable, answer ONE of the following four questions related to drainage into federal reservoirs. If none apply, leave the answer “NO”:
 - (a) The entire unit of concern (100 percent) is located within a hydrologic unit code (HUC) 11 drainage that is directly adjacent to a federal reservoir. (20 points)

Ranking Category–SEDIMENTATION ABOVE FEDERAL RESERVOIRS

- (b) The entire unit of concern (100 percent) is located in a HUC 8 main stem drainage that is upstream of a federal reservoir, above the HUC 11 drainage that is directly adjacent to the federal reservoir. (10 points)
 - (c) Any part of the unit of concern, but less than 100 percent, is located within a hydrologic unit code (HUC) 11 drainage that is directly adjacent to a federal reservoir. (15 points)
 - (d) Any part of the unit of concern, but less than 100 percent, is located in a HUC 8 main stem drainage that is upstream of a federal reservoir, above the HUC 11 drainage that is directly adjacent to the federal reservoir. (5 points)
3. Answer the following question related to applications considered joint agreements:
- Application is a joint agreement, as defined in the Title 440-Conservation Programs Manual, Conservation Program Contracting, Part 512, Section 512.41, with multiple participants in the effort of streambank stabilization. (20 points)
4. Answer the following question related to at-risk species:
- (a) Any part of the unit of concern is located within a Watershed Boundary Dataset (WBD) 12 digit watershed that contains an at-risk aquatic species **and** treatment of the resource concern will have a direct benefit to the at-risk aquatic species habitat. Only AQUATIC species identified for this ranking category on the Statewide At-Risk Species Listing are eligible for this resource concern. (5 points)

Reference: <http://www.ks.nrcs.usda.gov/programs/eqip/2012/criteria>

- (b) Any part of the unit of concern is located within 300 feet of a stream that contains an at-risk aquatic species **and** treatment of the resource concern will have a direct benefit to the at-risk aquatic species habitat. Only AQUATIC species identified for this ranking category on the Statewide At-Risk Species Listing are eligible for this resource concern. (10 points)

5. Answer the following question related to partner funding assistance:
- Producer has secured funding for portions of the project from other contributors, which may include, but is not limited to, conservation districts, U.S. Fish and Wildlife Service, Kansas Alliance for Wetlands and Streams, or other cost-share programs. (5 points)

Ranking Category–SEDIMENTATION ABOVE FEDERAL RESERVOIRS

Local Issues–

Answer the following questions related to the application:

- (1) Application includes at least one practice with a lifespan of 10 years or greater, as documented in the electronic Field Office Technical Guide (eFOTG). (5 points)
- (2) Practices are scheduled to be completed within four years. (5 points)
- (3) Participant requested a conservation plan for this application prior to August 31, 2011. (5 points)
- (4) Application was deferred from a previous funding period in the Program Contracts System (ProTracts). (5 points)
