Plant Enhancement Activity – KS-PLT08 Habitat Development for Beneficial Insects for Pest Management

Kansas Criteria for National Plant Enhancement Activity – PLT08

1. Permanent herbaceous vegetation will be established, where appropriate, using Conservation Practices 386, Field Border; and/or 393, Filter Strip, to provide beneficial insect habitat and cause pest insects to congregate for pest management strategies.
2. Refer to Construction Specifications 386, Field Border, for field border establishment.
3. Refer to Construction Specifications 393, Filter Strip, for filter strip establishment.
