	<sup>1</sup> A higher payment rate has been set for any participant that qualifies as a Limited Resource Farmer or Rancher, or Beginning Farmer or Rancher.	
	<sup>2</sup> Practices are eligible for a higher payment rate if they are a supporting practice for a planned Natural Resources Conservation Service (NRCS) electronic Field Office Technical Guide (eFOTG) practices 313, 317, 359, or 656.	
	<sup>3</sup> Practice eligible for use with tree and shrub plantings associated with 380, 391, 612 and 650.	
	<sup>4</sup> Practice is eligible for a solar pump to be used for the purpose of pumping water from a water body, in order to remove livestock from the water body (e.g., pond or stream).	
	<sup>5</sup> This practice will be installed for the entire crop rotation or contract length, whichever is longer; a minimum three crop type rotation will be installed.	
	<sup>6</sup> Practice is eligible on cropland converted to permanent vegetation meeting NRCS eFOTG standards and specifications of 512 or 550.	
	<sup>7</sup> This incentive is a one-time payment to encourage the participant to hire a technical service provider for completion of the Comprehensive Nutrient Management Plan (CNMP). This practice is not eligible for payment if the Natural Resources Conservation Service completes the CNMP.	
	<sup>8</sup> Requires at least 30 percent deferment during the growing season to be eligible.	
	<sup>9</sup> This is a one time payment for the period of adoption. Practice will be implemented a minimum of three years. Payment will be made upon initial implementation of the practice on all contracted acres.
