KS SAC NOTICE: 2012-01

TO: All Kansas Farm Service Agency (FSA), Natural Resources Conservation Service (NRCS), and Rural Development (RD) Offices

FROM: State Administrative Committee (SAC)

SUBJECT: Distribution of Educational Materials

The U.S. Department of Agriculture (USDA) and the Department of Education are working together to increase awareness of federal financial aid for post-secondary education in our rural communities. The Secretary of the USDA and the Department of Education are pleased to announce that information will be available for distribution in each of the field offices and made available immediately as students are making decisions about college over the summer. The Kansas NRCS state office is in the process of distributing a packet for each service center.

Each service center will be receiving several copies of the brochure "College Preparation Checklist" to place in the office and make available to visitors that might be interested. There is also an attachment with this memo that can be printed as needed which has several useful links for interested students and parents to follow for information on federal student aid and other educational programs available.

Please ensure this information is made available at service centers to students and parents as well as anyone else that might be interested. If you find that you need more materials or if you have any additional questions, please contact your agency's SAC Member through the proper channels.

Sincerely,

LOREN L. GRAFF
