FISCAL YEAR 2011
KANSAS EQIP ELIGIBLE PRACTICE LIST
Ranking Category - Organic¹

1	A higher payment rate has been set for any participant that qualifies as a Limited Resource Farmer or Rancher (LRF), Beginning Farmer or Rancher (BF), or Socially Disadvantaged Farmer or Rancher (SDF). LRF, BF, or SDF may apply under the ranking category specific to their resource concern, or the ranking category specifically for the historically underserved.
2	Practice eligible for use with 380, 391, 612, 650 and 798.
3	Practice is eligible for a pump to be used for livestock waste transfer or a solar pump to be used for the purpose of pumping water from a water body in order to remove livestock from the water body (e.g., pond or stream). Practice is also eligible on new wells.
4	This practice will be installed for the entire crop rotation or contract length, whichever is longer; a minimum three-crop-type rotation will be installed.
5	When cropland is converted to permanent vegetation it must meet Natural Resources Conservation Service (NRCS) electronic Field Office Technical Guide (eFOTG) standards and specifications of 512 or 550. Requires at least 30 percent deferment during the growing season to be eligible.
6	Practice will be implemented a minimum of three years. Payment will be made upon annual implementation of the practice.
7	Payment for 328 is not eligible on the same acres where payment is being received for 329, 345, or 346.
8	Management payment to leave brood strips in wheat stubble. Strips must be a minimum of 1 acre and must not exceed 10 percent of an individual field. Pivot corners and fields \leq 1 acre are eligible in their entirety. No stubble manipulation (tillage, mowing, spraying, grazing, etc.) allowed following crop harvest until after March 31 of the following year.
9	Management payment to leave unharvested strips in hayland fields of warm season grasses or alfalfa. Harvest must start in the middle of the field and proceed outward or begin on one side and move across the field.
10	Management payment to burn all acres in the treatment unit only one out of three years. The payment is eligible from a north south line from Washington County to Cowley County and all counties east thereof. Each acre in the treatment unit must be burned but shall only be burned only 1 out of 3 years. Burning shall not occur between May 1 and July 31. Payment will be made on actual acres to be burned every year.
11	Practice must be part of a Nutrient Management Plan that is developed prior to payment for this practice. For imported waste, the payment is limited to the storage needed for the contracted waste.
12	Wildlife escape ramps required where wildlife is deemed a primary or secondary concern.
13	Water Level Manipulations —this practice will be used ONLY after installation of practice 587 in a constructed, enhanced, or restored wetland/shallow water area. <u>Drawdowns</u> will be completed in one of the three seasons annually: Early —March 15th through May 1st; Mid-season —May 1st through July 15th or Late —after July 15th. Water levels should (1) be reduced slowly to increase annual vegetation diversity AND (2) have no more than 25 percent of the flooded area remaining saturated/flooded after drawdown is complete. <u>Reflooding</u> shall begin no later than August 15th and be completed gradually with all boards/stop logs installed by November 15th of that year.

14	<p>Vegetation Management will be completed annually to provide optimum food and structure for migratory birds. This practice will include herbaceous weed control, brush management, prescribed burning, and mechanical disturbances to create desirable migratory bird habitat, control trees and brush, and/or control other undesirable vegetation annually within the flooded areas ONLY. <u>Disking</u> will be completed on at least 25 percent of the flooded or saturated areas AND will be completed no fewer than 2 times in 3 years. Disking will be completed January 1st through April 1st and/or after July 15th through August 15th OR after drawdowns are complete and before reflooding begins for wetland with water control structures. Disking will be completed to a depth appropriate to achieve the desired response. 644 and 645 will not be paid for on the same acres in the same year.</p>
15	<p>This practice is not eligible on rangeland.</p>
16	<p>Financial assistance available for cross fences and perimeter/boundary fences. Perimeter/boundary fences are only eligible around expired/expiring Conservation Reserve Program (CRP) fields. Prior to beginning design on any perimeter/boundary fence, scheduled for financial assistance, a participant shall provide assurances of legal property line locations AND agreements with adjoining landowners. As a minimum this may include a notarized agreement with adjoining landowners regarding location and maintenance; notarized agreement with township, county, or state in the case of road right of ways; and/or a legal survey. Expenses for legal surveys and agreements are the responsibility of the participant. Failure to provide needed documentation of location and agreement with adjoining landowners may result in contract termination.</p>
