Resource Conserving Crop Rotation (RCCR) – KS-CCR99 Supplemental Payment Activity

Kansas Criteria for National RCCR – Supplemental Payment Activity – CCR99

Refer to the electronic Field Office Technical Guide (eFOTG) Conservation Practice 512, Pasture and Hay Planting, to select perennial grass and legume species.

Refer to eFOTG Conservation Practice 340, Cover Crop, to select annual cover crops to be used for green manure following small grains.

The following are high residue crops: barley, corn, millet, oats, popcorn, rice, rye, sorghum, sorghum-sudangrass hybrids, triticale, and wheat.
