

Preparing the Game Board

Slide number one is the game board itself. The game board has five categories. Each of the point values shown are linked to the question slides within the PowerPoint.

IMPORTANT: DO NOT EDIT ANY OF THESE BOXES EXCEPT FOR THE CATEGORY BOXES. Title the categories based on the questions in that column.

Slide numbers 2-51 are the question and answers slides. Prepare 25 questions and answers to populate these slides. Usually the questions get harder as the point values get larger. The first question begins on slide 2 and is associated with the point value of 100 in column 1. Question 2 begins on slide 4 and is associated with the point value of 200 in column 2, and so on. The question slides are linked to the answer slides which immediately follow and have a "HOME icon" in the bottom right-hand corner. Slide number 52 is the announcement slide for the BONUS QUESTION. **DO NOT EDIT THIS SLIDE.** Slides 53-54 are the question and answer slides for the bonus question and are optional.

Populate the slides using the white text boxes titled "Click to add title." Background fill can be added to match the slide color. **IMPORTANT: DO NOT USE ANY SYMBOLS SUCH AS COMMAS, SLASHES, COLONS, SEMICOLONS, ETC., IN THE TEXT BOXES. THESE SYMBOLS DISRUPT THE HYPERLINKS WITHIN THE POWERPOINT.**

Use of the Game Board

Put the PowerPoint in "play" mode to reveal the "HOME" slide or "game board" (slide 1). Click on the point value under the category requested by the player. The question will appear. When ready, click once to reveal the answer. To return to the HOME slide, click on the "HOME icon" in the bottom right-hand corner of the answer slide. The dollar value previously requested will change color to indicate it has been selected. Continue until all the questions and answers have been revealed. To advance to the bonus question click again on the "500" point question in the fifth column. Click to get to the answer slide. Instead of clicking on the "HOME icon," click to advance to the announcement slide for the bonus question. Click once to reveal the question and then once again to reveal the answer.
