Conservation Planning Technical Note - No. 4

PHOTO DOCUMENTATION FORM

This coversheet transmits the Photo Documentation Form.

The form may be used by conservation planners as a tool to organize and file digital photos and describe conditions that exist in the field. Photo documentation is useful when conducting resource inventories and status reviews.

The data form is available online via the NRCS Hawaii website at:

ftp://ftp-fc.sc.egov.usda.gov/HI/pub/technotes/cons_planning/

If you have questions about the data form, please contact the State Biologist, via phone at the NRCS Hawaii State Office: (808) 541-2600.
