## Economics / Sociology Technical Note No. 7

### PEOPLE PARTNERSHIPS AND COMMUNITIES INFORMATION SHEETS

This coversheet transmits copies of People Partnerships and Communities (PPC) information sheets that were developed by the NRCS Social Sciences Institute. PPCs were designed to provide guidance to the conservation partnership on how to work effectively with people and communities.

The PPC information sheets provide those working with farmers/ranchers with practical tips. The PPC format is succinct and provides an overview of a specific topic. However, they provide enough information that you can readily understand and utilize the concepts on a basic level immediately. The PPC sheets are as follows:

<b>Issue #</b>	<b>Title</b>
23	Human Aspects of the Conservation Planning Environment
26	Working with People of Different Cultures
40	Social and Professional Skills to be Effective with Small Farmers
41	Barriers and Strategies for Small Scale Producers
42	Gaining Trust with Small Farmers
43	Working with Community Leaders
44	Social Profile

A listing of all issues in the PPC series may be accessed from the Social Sciences Team Publications website in either of the following ways:

1. By directly typing in the site:  
<http://www.nrcs.usda.gov/wps/portal/nrcs/detailfull/national/people/outreach/oe/?cid=stelprdb1045637#brochures>
2. At NRCS Home and clicking the following:
  - People
  - Outreach & Advocacy
  - Organizational Effectiveness
  - Social Sciences Team Publications
