

Additional Resource Concern for PIA 2008 Conservation Security Program Tier II Contracts

CSP Tier II Participation—

- In addition to meeting the minimum soil and water quality criteria on their entire operation, the applicant must agree to address another significant resource concern applicable to their watershed, to be completed by the end of the contract period.
- If the applicable resource concern is already addressed or does to pertain to the operation, then this requirement is waived.
- Each Watershed area will only have 1 additional resource concern for Tier II participants
- For the Hawaii (Hamakua – Kau) and the Southern Guam watershed the 3rd Resource Concern will be Water Quantity - Inefficient Water Use on Irrigated Land.
