Forest Land - General Inventory

Date:
Prepared By:
Enter Producer Name:
Enter Farm/Tract Number:
Enter State:
Forest Land:
Enter Acres of Forest Land: <input style="width: 100px; height: 20px;" type="text"/>

<p>1 Other Lands: These areas are within the bounds of your operation. They include incidental areas that are not in agricultural production, or developed areas on the farm or ranch such as farm headquarters, ranch sites, barnyards, feedlots, manure storage facilities, machinery storage areas, and material handling facilities. All these areas must meet the following condition for stewardship eligibility to be met.</p> <p>Do you have any 'Other Lands' that have any readily observable erosion or point sources of contamination such as gullies, manure runoff or pesticide runoff?</p> <p style="text-align: right;"><input type="checkbox"/> Yes <input type="checkbox"/> No</p>
<p>2 Do you have unpaved farm roads used by farm vehicles (does not include unpaved county roads or other unpaved public roads) or other unpaved areas such as feedlots or material handling areas that frequently result in significant dust generation, reducing visibility along the road or over the unpaved area for extended periods? If yes, check any of the following methods you regularly use to control dust.</p> <p style="text-align: right;"><input type="checkbox"/> Yes <input type="checkbox"/> No</p> <p>Regularly spraying water to reduce the dust <input type="checkbox"/> Yes</p> <p>Apply biodegradable oils to reduce the dust <input type="checkbox"/> Yes</p> <p>Gravel surfacing <input type="checkbox"/> Yes</p> <p>Apply other environmentally benign dust control chemicals <input type="checkbox"/> Yes</p>

3 Identify each energy conservation reduction method used on your forest land:

Have you replaced electric motors or engines on your forest land with high efficiency models in the last 3 years? Yes

Do you use alternative energy sources (solar, wind, biofuels, green energy) to replace fossil fuel energy uses on your forest land? Yes

Have you improved the efficiency of heating, cooling or drying operations on your forest land in the last 3 years? Yes

Have you conducted an energy audit on your forest land and are now implementing the energy audit actions? Yes

Have you performed a pumping plant evaluation during the last 3 years and implemented the recommendations? Yes
