

**1997 Irrigated Acreage Estimates vs Total Acreage Estimates
by Land Cover/Use
for the Klamath River Basin - 180102**

Oregon National Resources Inventory Results
Estimated for Non-Federal Lands Only

	Irrigated Acreage Estimates	Irrigated Acreage Error	Non-Irrigated Acreage Estimates	Non-Irrigated Acreage Error	Total Acreage Estimates	Total Acreage Error	Percent of Acreage that is Irrigated
Cultivated Cropland	43,100	11,400	3,500	2,000	46,600	11,900	92%
Non-Cultivated Cropland	57,700	10,300	2,500	2,500	60,200	10,100	96%
Pasture	83,100	18,000	64,200	27,200	147,300	36,800	56%
Total	183,900	25,200	70,200	27,100	254,100	44,800	72%

NOTE: Data may not add to totals because of rounding. The error referred to in the table is the standard error of the estimate. You can obtain the margin of error at the 95% confidence limit by multiplying the error by 1.96. Standard errors greater than 50% of the estimate indicate a low level of statistical reliability.
